Here are hundreds and hundreds of real people's most common complaints and the proper responses to them. Written by an eminent etiquette expert, it is a guide to how to behave well and, more importantly, how to respond to bad behavior. What are the right rules for the coffee machine at work? Why do husbands always drink from the milk carton? Why are so many retail clerks rude? This book explains the reasons behind—and, more importantly, explains the proper responses to—all the most common irritations. Whether you are the matriarch of an unruly family trying to keep order, or an office worker just trying to figure out how to deal with pushy or messy colleagues, this is a book for you. It's as funny as it is useful.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Milk Carton Chronicles parallels modern and biblical relationships highlighting the impact these relationships can have on a persons' spiritual and social development. Volume I covers kinship, brotherhood and mentorship. Compared to biblical times many will agree that we have advanced in technology but in my own observation I would not make that same assessment in Man's advancement. Milk Carton Chronicles scratches the surface on why this may be. We must find the missing pieces, we must search for the missing faces on the side of milk cartons.

At the age of forty-five, Deborah Tobola returns to her birthplace, San Luis Obispo, to work in the very prison her father worked in when he was a student at Cal Poly. But she's not wearing a uniform as he did; she's there to teach creative writing and manage the prison's arts program—a dream job. As she creates a theatre program for prisoners, Tobola finds plenty of drama off the stage as well. Inside the razor wire she finds a world frozen in the '50s, with no contact with the outside except by telephone; officers who think prisoners don't deserve programs; bureaucrats who want to cut arts funding; and inmates who steal, or worse. But she loves engaging prisoners in the arts and helping them discover their voices: men like Opie, the gentleman robber; Razor, the roughneck who subscribes to The New Yorker; charismatic Green Eyes, who really has blue eyes; Doo Wop, a singer known for the desserts he creates from prison fare. Alternating between tales of creating drama in prison and Tobola's own story, Hummingbird in Underworld takes readers on an unforgettable literary journey—one that is frank, funny, and fascinating.

Following a day in the life of Clarabelle, one of 1,200 cows on a Wisconsin dairy farm, we learn what it takes for a cow to produce life-giving milk and also by-products like electricity. The manure that Clarabelle and her herdmates create not only generates electricity, it provides fresh bedding for cow stalls and fertilizer for the crops grown to feed the cows. Vibrant close-up photographs capture Clarabelle, her calf, and the youngest members of this multi-generational farm family, Josh and Sam, sharing the workload.

Every year, millions of applications stream to a handful of companies that regularly top the listings of best employers: Apple, Netflix, Amazon, Alphabet, Disney, SpaceX, Oracle, PricewaterhouseCoopers and others. In 2017, Tesla received as many as 200 applications for each vacancy, making it ten times more selective than Harvard. The only way to choose who to hire is with uniquely demanding questions that test imagination, persistence and creativity. Questions like: How is a milk carton like a plane seat? Why don't animals have wheels? What would happen if you drilled a hole all the way through the Earth and jumped in it? How Do You Fight a Horse-Sized Duck? explores the new world of interviewing at A-list employers. It reveals more than 70 outrageously perplexing riddles and puzzles and supplies both answers and general strategy for creative problem-solving.
