The MerCruiser 4.3 engine is a V6 inboard
motor, which means it is located inside of
the hull of a boat. The engine and its
components are subjected to high amounts
of heat due to this assembly setup and are
required to be reinforced to handle the
conditions. You will find all the new
MerCruiser 4.3 engine and replacements

Instructions you need through eBay to keep your boat operating at peak performance.

Mercruiser 4.3 Complete Inboard Gas Engines for sale | eBay

Remove the lock nuts from the bolts holding the starter in position. Most Mercruiser starters have bolts that will run from the bottom to the top, rather than from side to side like on a car starter. Once the nuts are off, reach underneath and pull the bolts out. Remove the starter from the engine compartment by lifting it out.
