The essential companion to Stieg Larsson's bestselling trilogy and director David Fincher's 2011 film adaptation Stieg Larsson's bestselling Millennium Trilogy—The Girl with the Dragon Tattoo, The Girl Who Played with Fire, and The Girl Who Kicked the Hornet's Nest—is an international phenomenon. These books express Larsson's lifelong war against injustice, his ethical beliefs, and his deep concern for women's rights. The Girl with the Dragon Tattoo and Philosophy probes the compelling philosophical issues behind the entire trilogy. What philosophies do Lisbeth Salander and Mikael Blomkvist have in common? To catch a criminal, can Lisbeth and Mikael be criminals themselves? Can revenge be ethical? Drawing on some of history's greatest philosophical minds, this book gives fresh insights into Larsson's ingeniously plotted tale of crime and corruption. Looks at compelling philosophical issues such as a feminist reading of Lisbeth Salander, Aristotelian arguments for why we love revenge, how Kant can explain why so many women sleep with Mikael Blomkvist, and many more. Includes a chapter from a colleague of Larsson's—who worked with him in anti-Nazi activities—that explores Larsson's philosophical views on skepticism and quotes from never-before-seen correspondence with Larsson. Offers new insights into the novels' key characters, including Lisbeth Salander and Mikael Blomkvist, and investigates the author, Stieg Larsson. As engrossing as the quest to free Lisbeth Salander from her past, The Girl with the Dragon Tattoo and Philosophy is a ideal reading for anyone interested in unraveling the subtext and exploring the greater issues at work in the story.

Baseball and Philosophy brings together two high-powered pastimes: the sport of baseball and the academic discipline of philosophy. Eric Bronson asked eighteen young professors to provide their profound analysis of some aspect of baseball. The result offers surprisingly deep insights into this most American of games. The contributors include many of the leading voices in the burgeoning new field of philosophy of sport, plus a few other talented philosophers with a personal interest in baseball. A few of the contributors are also drawn from academic areas outside philosophy: statistics, law, and history. This volume gives the thoughtful baseball fan substantial material to think more deeply about. What moral issues are raised by the Intentional Walk? Do teams sometimes benefit from the self-interested behavior of their individual members? How can Zen be applied to hitting? Is it ethical to employ deception in sports? Can a game be defined by its written rules or are there also other constraints? What can the U.S. Supreme Court learn from umpiring? Why should baseball be the only industry exempt from antitrust laws? What part does luck play in any game of skill?

Savor moments of Zen like never before, with our Senior Philosophical Correspondents. The Ultimate Daily Show and Philosophy is revised, expanded, and updated to probe deeper than ever before the philosophical significance of the quintessential “fake” news show of the 21st century. Features significant revisions and updates from the first 2007 edition. Includes discussion of both The Daily Show and its spin-off, The Colbert Report. Reveals why and how The Daily Show is philosophically engaging and significant. Showcases philosophers at their best, discussing truth, knowledge, reality, and the American Way. Faces head on tough and surprisingly funny questions about politics, religion, and power.

This unconventional and lighthearted introduction to the ideas of the major Western philosophers examines The Simpsons — TV's favorite animated family. The authors look beyond the jokes, the crudeness, the attacks on society — and see a clever display of irony, social criticism, and philosophical thought. The writers begin with an examination of the characters. Does Homer actually display

Aristotle's virtues of character? In what way does Bart exemplify American pragmatism? The book also examines the ethics and themes of the show, and concludes with discussions of how the series reflects the work of Aristotle, Marx, Camus, Sartre, and other thinkers.

What can South Park tell us about Socrates and the nature of evil? How does The Office help us to understand Sartre and existentialist ethics? Can Battlestar Galactica shed light on the existence of God? Introducing Philosophy Through Pop Culture uses popular culture to illustrate important philosophical concepts and the work of the major philosophers. With examples from film, television, and music including South Park, The Matrix, X-Men, Batman, Harry Potter, Metallica and Lost, even the most abstract and complex philosophical ideas become easier to grasp. Features key essays from across the Blackwell Philosophy and Pop Culture series, as well as helpful editorial material and a glossary of philosophical terms. From metaphysics to epistemology; from ethics to the meaning of life, this unique introduction makes philosophy as engaging as popular culture itself. Supplementary website available with teaching guides, sample materials and links to further resources at www.pop-philosophy.org

Untangle the complex web of philosophical dilemmas of Spidey and his world—in time for the release of The Amazing Spider-Man movie. Since Stan Lee and Marvel introduced Spider-Man in Amazing Fantasy #15 in 1962, everyone's favorite webslinger has had a long career in comics, graphic novels, cartoons, movies, and even on Broadway. In this book some of history's most powerful philosophers help us explore the enduring questions and issues surrounding this beloved superhero: Is Peter Parker to blame for the death of his uncle? Does great power really bring great responsibility? Can Spidey champion justice and be with Mary Jane at the same time? Finding your way through this web of inquiry, you'll discover answers to these and many other thought-provoking questions. Gives you a fresh perspective and insights on Peter Parker and Spider-Man's story lines and ideas. Examines important philosophical issues and questions, such as: What is it to live a good life? Do our particular talents come with obligations? What role should friendship play in life? Is there any meaning to life? Views Spider-Man through the lens of some of history's most influential thinkers, from Aristotle, Thomas Aquinas, and Immanuel Kant to Nietzsche, William James, Ayn Rand, and Alasdair MacIntyre.

Metallica: The \$24.95 Book features an in-depth look at Metallica's cultural significance with chapters devoted to each member, each album, touring, fashion, books, film, influences, fandom, and more, exploring the band's ideologies along the way. With over 125 million records sold worldwide, Metallica is the biggest metal band of all time. Four decades into their unparalleled career, Metallica is a massive cultural force who drastically changed the sound of popular music by creating their own rules. Yet for all their popularity, Metallica can seem impenetrable, raising more questions and inspiring more discourse as their mythos grows. Metallica questions run deeper than what people find on the internet. Metallica questions deserve a book. Metallica, by dedicated fan and music journalist Ben Apatoff (including a foreword by What Are You Doing Here? author Laina Dawes), is that book, honoring Metallica's history of fighting retail price gouging in the title. Metallica provides an in-depth look at the band and their music that both die-hard fans and Metallica beginners can enjoy.

This book was written mostly in calendar year 2008 either before the Death Magnetic album had been released or after it was released but before we had heard it. It reflects the anger and betrayal many fans of our generation, who had supported Metallica since Ride the

Access Free Metallica And Philosophy A Crash Course In Brain Surgery

Lightning days or even earlier, felt because of the Napster incident of 2000-2001 and the abysmal St. Anger album of 2003. We don't have this level of anger towards the band anymore. Maybe writing the article (as it was then) was a cathartic process. We admit that it was somewhat enjoyable bashing Lars Ulrich over the head with a weighty copy of Karl Marx's 1,100 page opus Capital Volume 1. Like Marx's Capital, our book was a product of its time. Please enjoy this book because it reflects the real anger towards Metallica which many older fans of the band were feeling in that time between the releases of St. Anger in 2003 and Death Magnetic in 2008.
