Nathan Vass has been driving a Seattle city bus at night for the last decade. He began writing a popular blog, The View from Nathan's Bus, about his encounters with the riders of the No. 7 bus, which cuts through the heart of the city's Rainier Valley, one of the most racially and ethnically diverse zip codes in the US. Nathan's blog entries grew into this book. His stories and photography illuminate an overlooked part of urban life and highlight the simple connections people make on a daily basis. His depictions of interactions on the city bus range from heartbreaking to hilarious to inspiring.

Imagine a bus system that is fast, frequent, and reliable--what would that change about your city? Buses can and should be the cornerstone of urban transportation. They offer affordable mobility and can connect citizens with every aspect of their lives. But in the US, they have long been an afterthought in budgeting and planning. Transit expert Steven Higashide uses real-world stories of reform to show us what a successful bus system looks like. Higashide explains how to marshal the public in support of better buses and argues that better bus systems will create better cities for all citizens. With a compelling narrative and actionable steps, *Better Buses, Better Cities* describes how decision-makers, philanthropists, activists, and public agency leaders can work together to make the bus a win in any city.

TRB's Transit Cooperative Research Program (TCRP) Report 125: Guidebook for Mitigating Fixed-Route Bus-and-Pedestrian Collisions is designed to help assist small, medium, and large transit agencies and their community members in identifying preventative or remedial strategies for reducing the frequency and severity of bus-and-pedestrian collisions. The report explores strategies to mitigate collisions, includes case studies on the implementation of mitigating strategies, and highlights important considerations associated with improving pedestrian safety around transit buses.

In *Trains, Buses, People: An Opinionated Atlas of US Transit*, transportation expert Christof Spieler shows how cities can build successful transit. He profiles the 47 metropolitan areas in the US that have rail transit or BRT, using data, photos, and maps for easy comparison. The best and worst systems are ranked and Spieler offers analysis of how geography, politics, and history complicate transit planning. In this fun and accessible guide, he shows how the unique circumstances of every city have resulted in very different transit systems. In the end, *Trains, Buses, People* shows what is possible with the right tools to build good transit.

Transit expert Christof Spieler has fully updated and expanded his popular book *Trains, Buses, People* to include eight Canadian cities and two new US cities (Indianapolis and San Juan, Puerto Rico). In *Trains, Buses, People, Second Edition: An Opinionated Atlas of US and Canadian Transit*, Spieler profiles the 49 metropolitan areas in the US and eight metropolitan areas in Canada that have rail transit or BRT, using data, photos, and maps for easy comparison. The best and worst systems are ranked and Spieler offers analysis of how geography, politics, and history complicate transit planning. *Trains, Buses, People, Second Edition* will help any citizen, professional, or policymaker with a vested interest evaluate a transit proposal and understand what makes transit effective and how to make it inclusive.
