I decided to do some research to find out the differences between methodology and framework and I am sharing with you here my findings. I will start with the term Methodology.

What is The Difference Between Methodology and Framework?
Methodology MSF is not a methodology for software development. It defines a a framework of phases and roles which can apply to many scenarios in IT projects. Interestingly, MSF has the concept of releasing the software product and then stabilising it with corrective actions (bug fixes for SW).

Talk:Microsoft Solutions Framework - Wikipedia
The Cloud Adoption Framework governance model identifies key areas of importance during the journey. Each area relates to different types of risks the company must address as it adopts more cloud services. Within this framework, the governance guide identifies required actions for the cloud governance team.
