A Practical Guide to Teaching Music in the Secondary School provides valuable support, guidance and creative ideas for student teachers, mentors and

practising teachers who want to develop their music teaching. Written to accompany the successful textbook Learning to Teach Music in the Secondary School, it will help you understand important current developments and explore new possibilities for teaching and learning. Focusing on teaching music musically, the book explores musical learning through placing pupils at the centre of a musical experience. Considering the revised KS3 curriculum and the 14--19 agenda in music, it also seeks to broaden the perspectives of music teachers through engaging with collaborative practice, transitions and cross-curricular work. Key issues explored include: personalising musical learning teaching creatively and promoting creativity approaches to using ICT in the classroom musical collaboration with other adults assessment for learning in music making connections with other subjects. Using practical examples and tasks, this book will help you critically examine the way in which children learn music. It is an invaluable resource for those involved in teaching music who are seeking to develop their practical and theoretical understanding.

The 4th FTRA International Conference on Computer Science and its Applications (CSA-12) will be held in Jeju, Korea on November 22~25, 2012. CSA-12 will be the most comprehensive conference focused on the various aspects of advances in computer science and its applications. CSA-12 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of CSA. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in CSA. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject. CSA-12 is the next event in a series of highly successful International Conference on Computer Science and its Applications, previously held as CSA-11 (3rd Edition: Jeju, December, 2011), CSA-09 (2nd Edition: Jeju, December, 2009), and CSA-08 (1st Edition: Australia, October, 2008).

Watch your PC's monitor, or watch TV? Using the Teach Yourself method, this edition includes step-by-step instruction and the visuals you need to quickly master WebTV basics. After you power up your first WebTV unit, with this proven tutorial soon you'll be navigating the Web, editing text, filling out forms, and sending e-mail -- by your television's remote or your unit's keyboard. You'll make the most of WebTV when you visit news and entertainment centers and, of course, watch TV. If you find that surfing the Web is more comfortable from your sofa, WebTV and its communities are the right choice for you.
