Blueprint, schematic drawing and manual reading are needed for millwrights in determining work procedures. Millwrights use a wide variety of tools. They may use hand and power tools in installation and repair work. Larger machine tools such as lathes, milling machines and grinders may be used in fabrication of machining parts.

Respected by generations of skilled workers, Audel Millwright's and Mechanic's Guide is the only trade manual to cover maintenance and troubleshooting for all the mechanical trades in a single volume. Now available in hardcover, it covers the newest equipment on shop floors as well as older machinery, sometimes more than 30 years old, for which little maintenance and repair information remains available.
