Nicholas Faith states in his book that Murray Mackay, one of the UK's leading motor vehicle crash and safety researchers, was critical of the pre-1967 Mini's passive safety features, including the protruding filler cap, the door latch, and the vulnerability of the passenger space to engine intrusion. The Mini was withdrawn from the American market because it could not meet the 1968 U.S. safety regulations and emission standards, and although often updated, not sufficiently to comply with U.S ...
