“From this century, in France, three names will remain: de Gaulle, Picasso, and Chanel.” –André Malraux Coco Chanel created the look of the modern woman and was the high priestess of couture. She believed in simplicity, and elegance, and freed women from the tyranny of fashion. She inspired women to take off their bone corsets and cut their hair. She used ordinary jersey as couture fabric, elevated the waistline, and created bell-bottom trousers, trench coats, and turtleneck sweaters. In the 1920s, when Chanel employed more than two thousand people in her workrooms, she had amassed a personal fortune of \$15 million and went on to create an empire. Jean Cocteau once said of Chanel that she had the head of “a little black swan.” And, added Colette, “the heart of a little black bull.” At the start of World War II, Chanel closed down her couture house and went across the street to live at the Hôtel Ritz. Picasso, her friend, called her “one of the most sensible women in Europe.” She remained at the Ritz for the duration of the war, and after, went on to Switzerland. For more than half a century, Chanel’s life from 1941 to 1954 has been shrouded in vagueness and rumor, mystery and myth. Neither Chanel nor her many biographers have ever told the full story of these years. Now Hal Vaughan, in this explosive narrative—part suspense thriller, part wartime portrait—fully pieces together the hidden years of Gabrielle “Coco” Chanel’s life, from the Nazi occupation of Paris to the aftermath of World War II. Vaughan reveals the truth of Chanel’s long-whispered collaboration with Hitler’s high-ranking officials in occupied Paris from 1940 to 1944. He writes in detail of her decades-long affair with Baron Hans Günther von Dincklage, “Spatz” (“sparrow” in English), described in most Chanel biographies as being an innocuous, English-speaking tennis player, playboy, and harmless dupe—a loyal German soldier and diplomat serving his mother country and not a member of the Nazi party. In Vaughan’s absorbing, meticulously researched book, Dincklage is revealed to have been a Nazi master spy and German military intelligence agent who ran a spy ring in the Mediterranean and in Paris and reported directly to Nazi propaganda minister Joseph Goebbels, right hand to Hitler. The book pieces together how Coco Chanel became a German intelligence operative; how and why she was enlisted in a number of spy missions; how she escaped arrest in France after the war, despite her activities being known to the Gaullist intelligence network; how she fled to Switzerland for a nine-year exile with her lover Dincklage. And how, despite the French court’s opening a case concerning Chanel’s espionage activities during the war, she was able to return to Paris at age seventy and triumphantly resurrect and reinvent herself—and rebuild what has become the iconic House of Chanel.

Reveals the formidable organization of intelligence outsourcing that has developed between the U.S. government and private companies since 9/11, in a report that reveals how approximately seventy percent of the nation's funding for top-secret tasks is now being funneled to higher-cost third-party contractors. 35,000 first printing.

Of interest to both researchers and professionals, this book constitutes the thoroughly refereed post-proceedings of the first International Conference on E-Voting and Identity, VOTE-ID 2007, held in Germany in 2007. The 16 revised full papers here were reviewed and selected from numerous submissions. The papers are organized in sections that include, among many others, remote electronic voting, evaluation of electronic voting systems, and electronic voting in different countries.

This book considers local autonomy, measured as a multidimensional concept, from a cross-country comparative perspective, and examines how variations can be explained and what their consequences are. It fills a gap in the literature by providing a comprehensive study of the different components of local autonomy across a large number of countries, over time. It offers a theoretically saturated concept to measure local autonomy and applies it to 39 countries, including all 28 EU member states together with Albania, Georgia, Iceland, Liechtenstein, Macedonia, Moldova, Norway, Serbia, Switzerland Turkey and Ukraine, over a period of 25 years (1990-2014).

Often cited as one of the most influential works of short fiction of the 20th century, *Metamorphosis* is widely studied in colleges and universities across the western world. Nobel Peace Prize winner Elias Canetti described it as "one of the few great and perfect works of the poetic imagination written..."

Through real-life single and multiple case studies, *Learning to Lead Together* addresses how principals and their staffs struggle with the challenge of shared leadership, how they encourage teacher growth and development, and how shared leadership can lead to higher levels of student learning. The cases show how shared leadership, a powerful adaptive change, is socially constructed across contexts and evolves as teachers and principals learn how to work together. The book also illustrates how principal preparation and professional development programs that utilize problem-based learning and provide opportunities for genuine collaboration with colleagues can provide school leaders with the skills they need to share leadership and accountability effectively.
