In this book, his own account of the crises that beset his country from 1990 to 1993, Yeltsin reveals how close he came to losing control, how he made his fatal mistakes and key choices, and how he regards his achievements, his opponents and his allies, and assesses what remains to be done.

This book covers all the subjects which is important form examination point of view. We have contain the questions from Latest Important Events 2021 , Forest survey report 2019 & The Union Budget 2021 - 22. Apart from this, we have also covered other sections like India and World History, India and World Geography, Indian Polity, Indian Economy, General Science, Computer and Miscellaneous form where expected questions are asked in various competitive exams.

Offering a wide array of illustrations and tables in every chapter, this book extensively covers the principles of allosterism in reference to drug action and progresses to a detailed examination of individual ionotropic and G-protein coupled receptor systems-helping those new to the subject understand the importance of allosterism and providing those already working in the field with specific reference information. This title provides in-depth chapters on basic principles of allosterism and its significance at GABAA, 5HT3, nicotinic, and GABAB receptors, ionotropic and metabotropic receptors for glutamate, muscarinic receptors and alpha 2 adrenoreceptors to provide a firm foundation to the subject.
