Failure is always an option... For more than 50 years, NASA's Mission Control has been known for two things: perfect decision making in extreme situations and producing generations of steely-eyed missile men and women who continue that tradition. A key to that legacy of brilliant performance is a particular brand of leadership, especially at the working level in Mission Control.

The first principles of Product Management can be reduced to: A. Maximize impact to the mission: develop a product strategy that maximizes the impact to an organization's mission given a set of inputs. B. Accomplish everything through others: PMs do not directly build or operate the product, instead they enable those around them to do it better.
