Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Complete factory style service manual for Mitsubishi Jeeps produced in Japan. This manual covers both Military & Civilian versions of domestic and export versions. Complete rebuild of you engine and turbocharger (if equipped). Easy to use diagrams and full specification guide. Rebuild your engine, Fuel Injection, timing gears, starter, alternator, and more. This book is a must for the Mitsubishi Jeep owner. All written in English.

Comprehensive and controversial, this book critically examines Japan's economic presence in Asia.

This book explores Japanese investment in Europe and Southeast Asia, in relation to the automobile industry. In Part I the authors examine industrial organization and policy issues in Thailand, Malaysia, The Philippines and Indonesia, looking at Japanese investment and the relative policy successes and failures in these host countries. Part II looks at skill formation systems in the Japanese dominated automobile industry in Southeast Asia and in Part III the authors focus on the EU and the very different influence of Japanese investment.

This book deals with the systems of cost reduction that originated in Japan. These are mostly new systems that did not exist in western practices before they were utilized in Japan. The book also presents the Japanese ways of carrying out the globally popular cost reduction practices.(1) It describes the strategic cost management conducted by top management through alliances between companies and/or between government and industry.(2) It shows the functional cost reduction systems along the various phases of the product life cycle, as follows: R&D ? Product development ? Manufacturing ? Administration and

indirect operations(3) It conducts some humanistic or behavioral aspects of Japanese cost reduction systems.

Facing Asia examines the political and economic processes of regionalism and regionalization in Asia with a focus on Japan and Japanese actors. The articles by eminent scholars address the forces that tie the region together. They treat topics ranging from Japanese bilateral and multilateral ODA and the activities of state and non-state actors on the regional level to issues such as Japanese multinational corporations, foreign direct investment in Asia, and regional financial institutions. Methodologically, the authors draw on disciplinary strengths in either the social sciences or economics while organizing their treatment around a shared political-economic perspective. By looking at Asia through an interdisciplinary lens, the volume offers something to anyone interested in Japanese involvement in the politics and economics of the region. In the final chapter, the editors weave together the different approaches to Japan's place in Asian regional cooperation in the 1990s and beyond.
