Steps to Naming Covalent Compounds.

Read Book Mixed Ionic Covalent Compound

First, identify the elements present.

Second, look at the subscript of each element to determine which prefix to use.

(If an element does not have a prefix, assume that the subscript is “1.” Third, apply the above naming scheme. (Note: If the prefix of the first element would be “mono-”, it is not needed.) TIP!: Get used to what part of an element’s ...
