The acclaimed bestseller that's teaching the world about the power of mass collaboration. Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world, *Wikinomics* has become essential reading for business people everywhere. It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube, but at traditional companies that have embraced technology to breathe new life into their enterprises. This national bestseller reveals the nuances that drive *wikinomics*, and share fascinating stories of how masses of people (both paid and volunteer) are now creating TV news stories, sequencing the human genome, remixing their favorite music, designing software, finding cures for diseases, editing school texts, inventing new cosmetics, and even building motorcycles.

From the Disney Teacher of the Year and New York Times bestselling author Ron Clark comes the classic guide to bringing out the best in your students, revised and updated for today's teachers. Over 1 million copies sold! When Ron Clark walked into

his fifth-grade class in rural North Carolina, he was confronted with disinterested children in desperate need of structure and compassion. Brainstorming how best to reignite their love of learning, Ron created 55 lessons. Soon his fifth graders were reading at a sixth-grade level, engaging in class, and loving school. What's more, they were gaining something crucial: self-respect. These lessons evolved into The Essential 55--guidelines for students on how to live and interact with others. Ron lit a fire under parents and teachers around the world to raise their standards and expect the most from their students. The Essential 55 features a new foreword from Ron and a fresh take on his classic rules, along with contributions from Ron's former students, who reflect on which rules resonated most. Ron's 55 ideas show that with determination, discipline, and regular rewards, the children you stick by will be the children you eventually admire.

Chronologically organized, *Child Development From Infancy to Adolescence, Second Edition* presents topics within the field of child development through unique and highly engaging Active Learning opportunities. The Active Learning features integrated within the print text and digital program foster a dynamic and personal learning process for students. Within each chapter, authors Laura E. Levine and Joyce Munsch introduce students to a wide range of real-world applications of psychological research to child development. The in-text pedagogical features and the accompanying digital components help students discover the excitement of studying child development and equip them with skills they can use long after

completing the course.

Writing Matters unites research, reasoning, documentation, grammar and style in a cohesive whole, helping students see the conventions of writing as a network of responsibilities writers have... ..to other writers. Writing Matters clarifies the responsibility writers have to one another--whether they are collaborating in an online peer review or drawing on digital and print sources in a research project--to treat information fairly and accurately and to craft writing that is fresh and original--their own! ...to the audience. Writing Matters stresses the importance of using conventions appropriate to the audience, to write clearly, and to provide readers with the information and interpretation they need to make sense of a topic. ...to the topic. Writing Matters emphasizes the writer's responsibility to explore a topic thoroughly and creatively, to assess sources carefully, and to provide reliable information at a depth that does the topic justice. ...to themselves. Writing Matters encourages writers to take their writing seriously and to approach writing tasks as an opportunity to learn about a topic and to expand their scope as writers. Students are more likely to learn about a topic and to expand their scope as writers. Students are more likely to write well when they think of themselves as writers rather than as error-makers. By explaining rules in the context of responsibility, Writing Matters addresses composition students respectfully as mature and capable fellow participants in the research and writing process.

An American midwife travels to Central America to care for the women and children suffering through war.

`A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of *Writing Your Dissertation in Fifteen Minutes a Day* `Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success* is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

In *Decoding the Heavens*, Jo Marchant tells for the first time the full story of the hundred-year quest to decipher the ancient Greek computer known as the Antikythera Mechanism. Along the way she unearths a diverse cast of remarkable characters and explores the deep roots of modern technology in ancient Greece and the medieval European and Islamic worlds. At its heart, this is an epic adventure and
