...

MMDVM is an open source software project licensed under GPL v2, but with a note to say that it is intended for amateur and educational use only, with commercial use strictly forbidden. This does seem possibly at odds with the GPL licence, but is likely to do with digital codec patents. The MMDVM firmware supports the following

The MMDVM board just slides on the pins of the Raspberry Pi! Simple as that! There are 2 black pin connectors on the MMDVM and these just slip straight on the top of the Raspberry Pi, No soldering or anything required here. That is basically the hotspot put together! I know right! I didn't think it was going to be that easy either really but it is, just pop the
