This guide is intended for students learning computer operations and administration on the AS/400 computer system. Offering a unique approach to learning AS/400 operations with extensive hands-on labs, self-tests, and review questions, this book uses real-world situations to enable users to be productive with AS/400 operations. This book also covers the requirements of the two IBM AS/400 certification exams: AS/400 Associate System Operator Certification (test 052) and AS/400 Professional System Operator Certification (test 053). The primary goal of this book is to teach users how to perform day-to-day operations on an AS/400 computer system, including IPL, starting and stopping the system, backup and recovery, and system cleanup. Procedures covered include creating and maintaining user environments, device configuration and management, security implementation, work and data management, and TCP/IP configuration. Console operations discussed include jobs, message handling, and working with spool files and peripheral devices. Functions of Operations Navigator are covered, and Electronic Customer Support (ECS) and PTF upgrades are also introduced.

The Fourth Edition of *Firefighting Strategies and Tactics* meets and exceeds the course outcomes of the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) course Strategy and Tactics (C0279). *Firefighting Strategies and Tactics, Fourth Edition* is a valuable resource for fire fighters studying for promotion or taking civil service examinations. The Fourth Edition reinforces safe and effective firefighting strategies and tactics for fire fighters and fire officers to employ during a wide spectrum of fire incidents. The chapters follow a natural progression, each chapter building on the previous foundation to provide a broad understanding of firefighting strategy and tactics. *Firefighting Strategies and Tactics, Fourth Edition* offers in-depth coverage of potential incident hazards, strategic goals, and tactical objectives at: One- and two-family dwellings Multiple-family dwellings Commercial buildings Places of assembly High-rise buildings Vehicle fires Wildland fires The Fourth Edition also includes: An Emphasis on Safety--Safety and professionalism are stressed throughout the chapters and are reinforced through discussions of incident effectiveness, hazard awareness, and strategic decision-making. Information for Today's Fire Service--Expanded and new discussions on geographic information system (GIS mapping), drone use for creating preincident plans, cancer risks in the fire service, gross decontamination of bunker gear after fires to reduce carcinogens, lookouts-communications-escape routes and safety zones (LCES), and deployment of rapid intervention crews at wildland fires. Engaging Case Studies--Opening each chapter, case studies highlight actual events to emphasize the importance of developing sound strategies and tactics to fight fires effectively and safely. Additional case studies close out each chapter and provide students an opportunity to test their understanding in a safe environment. Knowledge in Action--The final chapter demonstrates how the strategies and tactics throughout this resource may be applied in scenarios set at various types of occupancies. This feature offers students an opportunity to see how concepts are applied in the real world.
