Navistar Maxxforce 7 Engine Problems

The lawsuit claims that the engines could not handle the heat and pressure they generate, causing exhaust leaks and EGR cooler failures. Although this lawsuit does not apply solely to the MaxxForce 7 engine, the class action suit included any MaxxForce International engine purchased between 2008 and 2013. Most claims in the suits involve early engine failures and breach of security laws by the manufacturer.

What Are Some MaxxForce 7 Problems? - Reference.com

Owners of Navistar International Corp. trucks with faulty MaxxForce engine technology will qualify for a no-questions-asked \$2,500 payout or a \$10,000 rebate on a new truck under a \$135 million...

Navistar Settles Class Action Over Faulty MaxxForce Engines

After running some tests we found a low compression problem on the # 2 cylinder. This has happened to a few of the maxxforce 7 diesel engines in our fleet already. The lack of compression caused by excessive engine wear turned into an engine replacement which luckily for us was covered by warranty.

International MaxxForce 7 Diesel Engine Miss | Mechanics Hub

The MaxxForce 7 is a V8 and as you saw in the video has a lot of hardware attached to the basic block with the remote mounted Bendix air compressor included. 3 of these buses have had failed high pressure fuel pumps. The engine oil gets diluted and reduces oil pressure.

MaxxForce 7 Diesel Engine Overview | Mechanics Hub

Tim Shick, vice-president of sales support with Navistar, said most of the problems could be traced to the MaxxForce engine's turbo air control valve, which connects directly to the engine's electronic control module (ECM).

How Navistar solved its EGR problems - Truck News

Navistar/MaxxForce Engine Overview. On September 27, 2012, Navistar announced that it was dropping its MaxxForce 15-liter heavy-duty diesel engine in favor of the Cummins ISX15, and that its 13-liter heavy-duty diesel engine would continue to be built but would utilize selective catalyst reduction(SCR) technology instead of its, once prominent, exhaust gas recirculation-only(EGR) engine.

Navistar/MaxxForce Engine Overview - Miller Weisbrod, LLP

In MaxxForce 7 guise, the engine produces between 200–230 hp (149–172 kW) and 580–620 lb?ft (786–841 N?m) of torque. [3] For the 2010 model year, Navistar has upgraded the MaxxForce 7 with dual compound turbochargers, giving it a new power range at 220–300 hp (164–224 kW) at 2600 rpm and 520–660 lb?ft (705–895 N?m) of torque at 1600–2200 rpm. [4]

Navistar VT engine - Wikipedia

Posted By: RECVEH2005 on 02/27/12 11:25pm I'm looking at a couple of new thirty three foot Class A motorhomes that are powered by a Navistar MaxxForce 7 diesel. I would like to get opinions on this engine from those who have experience with it and/or who know anything about it.

Topic: Navistar MaxxForce 7 diesel engine - RV.net

I have driven about 4 Navistar Maxxforce 7 diesels in IC full size school buses. They are a constant hassel re the EGR and DPF system. Especially bad in typical Central Canada winter weather. The hyper EGR only emissions cleaning system causes unburnt diesel oil to wash past the piston rings contaminating the crankcase lube oil.

Goodbye Maxxforce - Daily Diesel Dose

The Navistar DT engine family is a line of mid-range inline-6 diesel engines.With horsepower ratings ranging from 170 hp (130 kW) to 350 hp (260 kW), the Navistar DT engines are used primarily in medium-duty truck and bus applications such as school buses, although some versions have been developed for heavy-duty regional-haul and severe-service applications.

Navistar DT engine - Wikipedia

hello guys, we just got in a truck with a 2012 Maxxforce 7 engine that constantly makes oil (fuel in oil). this is a common and known problem for Maxxforce 7 engines. yet Navistar fails to acknowledge and release a fix. i have a copy of all the work that has been performed at the dealer to attack this issue, ECM flashes and oil changes seem to be their most favorite "repair" which never works.

Class-action lawsuit accuses Navistar of knowingly selling ...

Ford ended its relationship with Navistar due to a multitude of engine problems. Since 1994 Navistar had built every Ford V-8 Power Stroke engine used in Ford's F-Series. But Ford discontinued their Navistar built diesel V-8 diesel and in 2010 replaced the Navistar diesel with a new 6.7-liter diesel V-8 that Ford designed in-house.
