The proper working of ritual is at the heart of the Western magical tradition. This book shows exactly how ceremonial techniques can be used to concentrate and harness the enormous psychic and spiritual potential of human consciousness. Dr Regardie's detailed analysis and description of key rituals are based on his own considerable experience and his knowledge of Golden Dawn techniques. In addition to providing practical instructions on robes, ritual equipment and decor, he also links current occult practice to broader historical precedents. Introduction from noted Golden Dawn scholar Pat Zalewski; Includes the Opening of the Watchtower Ritual for Self Transformation. Book jacket.

Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Discover how the scientist Bruce Banner becomes the green giant known as the incredible Hulk! Ready-to-Read books offer children a world of possibilities at three different reading levels. Level 1: Starting to Read Simple stories, building vocabulary, basic sentences. Level 2: Reading Independently More-challenging stories, varied sentence structure, paragraphs and short chapters. Level 3: Reading Proficiently Complex stories, rich vocabulary, longer chapters.

A simple holiday romance is all that Carla Walker wants. But when Philip Garrison strolls into her life, she gets more than she bargains for.

Kate and Hugh are part of a university scientific expedition in the snowy wastes of Norway, investigating the environmental impact of climate change. Whilst on a routine sample collecting exercise on a bleak snow field, Hugh discovers two bodies buried in the ice. An excavation of the site is prioritised but, with night falling quickly and temperatures plunging, Hugh is left to keep watch alone, until he is joined later by Kate. A fluid movement out of full sight caught Hugh's eye. It wasn't the natural flurry of snow in the wind; it was a purposeful movement. Suddenly, a stark shapeless figure was transiently present and then, just as suddenly, gone, its outline blending into the grey night and scurrying snow blasts. During the night, the site is visited by a wolf and a man dressed in ancient Nordic clothing who steal the bodies and disappear off into a blizzard. Kate and Hugh follow the strange pair but succumb to the cold. Awaking from unconsciousness, they meet the man they have been chasing - 'the Guardian' and his guide Janus, a wolf and her cub Lado. Janus explains that both he and the Guardian have been battling to prevent chaos overturning the unity of the 'paraverse', which is being threatened by Prince Adren. In this paraverse, each universe, planet, ecosystem and creature, no matter how distant, is connected, and Hugh and Kate are part of the key to preventing the Prince turning order to chaos. To do this they have to face Prince Adren in different time periods in different guises, with varied outcomes, until they can finally overcome him... Only Blue Will Do is a gripping time-slip fantasy that sees Kate and Hugh battle for humanity across different eras.
