Nikon's Manual-Focus Lenses | B&H Explora

Any older Nikon lens will attach to every Nikon camera. Some very old lenses may lose some metering functionality but otherwise, work very well. Some may also need slight modification. Adapters are available for just about every camera and lens combination. Once you've bought your first old manual focus lens, it may pay to stick to buying the same brand. That way you can use the same adapter.

Manual Camera Lens for Nikon | eBay

1.) Don't bother with manual focus lenses on digital cameras. Optically they work great, however with most cameras you'll have no metering or automation. You can use these in a studio but they are almost useless in the field. 2.) Optically all Nikon lenses ever made work great on all digital Nikons.

Nikon Lens Reviews - Ken Rockwell

Manual focus is available for lenses that do not support autofocus (non-AF NIKKOR lenses) or when the autofocus does not produce the desired results (\u2609 Getting Good Results with Autofocus). AF lenses: Set the lens focus mode switch (if present) and camera focus-mode selector to M.
