Nine Steps to Success eBook by Alan Calder - 9781849288255 ...

Features a foreword by John Maxwell and afterword from Steven R. Covey. Have you ever thought about the connection between knowing who you are and success? Identity can serve as your greatest asset. Enduringly successful people know who they are, are clear about what matters to them, have established powerful identities, and create value in the world. In this book, the process for discovering and understanding your identity is brought to life through Stedman Graham's personal experiences and the stories of individuals who've resolved their questions of identity, building a life that matters to themselves and those around them. Take control of who you are. Take control of your life. Achieve lasting success. Now a Wall Street Journal bestseller!

Become a passionate, purposeful, and meaningful leader through identifying who you are, your strengths, and your skills. New York Times bestselling author Stedman Graham's Identity Leadership is a very personal and prescriptive guide that is based on his philosophy that a leader can't lead others until he can first lead himself-the more he works on himself, the more he can give to those around him. To know our purpose in life, we begin with our passions, skills, and talents, and with this book we learn how to channel the best of who we are to achieve success for ourselves and those we lead. In Identity Leadership, Graham examines why self-awareness matters, how leaders lead, the importance of communication, and much more. He then shows the reader how to step into their role as a leader and create their identity leadership plan. Key to the journey is believing in yourself, knowing your competence, continually challenging yourself, and being patient with yourself. Graham uses anecdotes from his own life, as well as discussing successful leaders, to illustrate the importance of identity leadership in each of our lives. Self-leaders can create a roadmap that leads to personal growth, development, and improvement of performance in every area of life. Identity Leadership provides the tools-self-awareness, emotional intelligence, discipline, and more-needed to continually plan and execute learning and development of our talents and skills. These tools enable readers to commit to a personal vision and lead with purpose.
