Présente les techniques divinatoires de Nostradamus, les prophéties qui se sont révéleés exactes au cours de l'histoire du monde, les prédictions concernant le futur, les prophéties de Saint Malachie, de Sainte Brigide, celles de la religieuse de Dresde, les Centuries, etc.

Dans le cadre de mes travaux sur l'oeuvre prophétique de Nostradamus, je me suis constitué au fil des années un certain nombres d'outils de travail. Il m'a paru nécessaire d'offrir au public ses outils pour permettre aux chercheurs ou simplement aux curieux d'approfondir la connaissance des prédictions du prophète provençal. Ils seront publiés dans le courant de l'année 2021, sauf si de graves événements devait survenir, qui en empêcherait la vente. Le premier livre, celui que vous avez entre les mains, propose les textes prophétiques les plus importants de Nostradamus sous deux formes. Un fac-similé de l'édition originale du XVIe siècle et sa traduction en français moderne. Cela concerne les deux textes en proses, la lettre à César et l'épître à Henri. Il y a également les dix centuries et ses quatrains. La présence de la reproduction intégrale du texte édité du vivant de Nostradamus au côté de sa traduction moderne permet un travail de comparaison essentiel, selon moi, pour éclaircir efficacement l'étude de Nostradamus. Enfin, je propose sur plusieurs centaines de pages, un index des mots cités par le prophète et les quatrains où ils se trouve, afin de permettre une étude du champ lexical et une recherche par mot clef. Un outil dont je me sers presque quotidiennement dans mon travail.

Le génie de Nostradamus finira-t-il jamais de nous étonner ? Médecin et astrologue de Catherine de Médicis, il mourut au jour et à l'heure qu'il avait indiqués, en 1566. Historien, homme de science, poète et prophète, il eut la vision de centaines d'événements déterminants de l'Histoire, depuis le XVIe siècle, jusqu'à l'an 2099 ! De la Révolution française à la Grande Guerre, de l'avènement de Napoléon à la prise du pouvoir par Hitler, de la destruction de Hiroshima jusqu'à la guerre du Golfe, des guerres de religion aux attaques suicides du 11 septembre 2001 : toutes ces visions sont décrites, en termes souvent fort précis, au long des quelque 969 quatrains qui composent les dix Centuries. Catastrophe nucléaire dans le Sud de la France, destructions à Paris et à Rome, ambitions territoriales de la Chine, assassinat du pape... Les prophéties de Nostradamus constituent le seul livre où l'humanité peut déchiffrer son avenir comme en un miroir. Elles sont ici présentées dans leur version intégrale et authentique.

We all know the name Nostradamus, but who was he really? Why did his predictions become so influential in Renaissance Europe and then keep resurfacing for nearly five centuries? And what does Nostradamus's endurance in the West say about us and our own world? In Nostradamus: How an Obscure Renaissance Astrologer Became the Modern Prophet of Doom, historian Stéphane Gerson takes readers on a journey back in time to explore the life and afterlife of Michel de Nostredame, the astrologer whose Prophecies have been interpreted, adopted by successive media, and eventually transformed into the Gospel of Doom for the modern age. Whenever we seem to enter a new era, whenever the premises of our worldview are questioned or imperiled, Nostradamus offers certainty and solace. In 1666, guests at posh English dinner parties discussed his quatrain about the Great Fire of London. In 1942, the Jewish writer Irène Némirovsky latched her hopes for survival to Nostradamus' prediction that the war would soon end. And on September 12, 2001, teenagers proclaimed on the streets of Brooklyn that "this guy, Nostradamus" had seen the 9/11 attacks coming. Through prodigious research in European and American archives, Gerson shows that Nostradamus — a creature of the modern West rather than a vestige from some antediluvian era — tells us more about our past and our present than about our future. In chronicling the life of this mystifying figure and the lasting fascination with his predictions, Gerson's book becomes a historical biography of a belief: the faith that we can know tomorrow and master our anxieties through the powers of an extraordinary but ever more elusive seer.

Nostradamus est l'un des prophètes les plus célèbres de l'histoire. Dans ce livre, nous verrons son histoire, sa méthodologie pour les prophéties et bien sûr, nous analyserons également certaines de ses célèbres prophéties. En fait, on dit que Nostradamus a prédit de nombreux événements historiques, mais est-ce la réalité ou simplement un mythe? Dans ce livre, nous allons essayer de le découvrir.
