CHAPTER 22 The Respiratory

System I. Introduction to the

Respiratory System A. What is

Respiration? Respiration is

defined as the exchange of gases

(most notably oxygen and carbon

dioxide) between the

atmosphere, lungs, blood, and

Introduction Chapter Objectives

After studying this chapter, you will be able to:

- List the structures of the respiratory system
- List the major functions of the respiratory system

~~22 | THE RESPIRATORY SYSTEM~~

What is the major function of the respiratory system? Supply oxygen for aerobic respiration and remove and dispose of carbon dioxide What are the four steps of respiration? Pulmonary ventilation, External respiration, Transport of respiratory gases, Internal respiration.

Anatomy of the Respiratory System
Respiration: Ventilation of the lungs (breathing) or the use of oxygen in cellular metabolism
Respiratory system-An organ system that rhythmically takes in air and expels it from the body-
Supplying the body with oxygen and expelling carbon dioxide that it generates
Functions-Gas exchange o It provides for oxygen and carbon dioxide exchange between the blood and air-
Communication o Serves for speech and other vocalization (Laughing ...
