Contains decisions of the various courts of Quebec and includes a few cases of earlier date.

"Surviving the Extremes brings personal experience and scientific knowledge together beautifully, giving us narrative that are powerful, moving, and very real." -Oliver Sacks A true-life scientific thriller no reader will forget. Surviving the Extremes takes us to the farthest reaches of the earth as well as into the uncharted territory within the human body, spirit, and brain. A vice president of the legendary Explorers Club, as well as surgeon, explorer, and masterful storyteller, Dr. Kenneth Kamler has spent years discovering what happens to the human body in extreme environmental conditions. Divided into six sections—jungle, high seas, desert, underwater, high altitude, and outer space—this book uses firsthand testimony and documented accounts to investigate the science of what a body goes through and explains why people survive—and why they sometimes don't.

The answer is NO! Abuse, neglect, abandonment, rejection, adoption, foster homes, orphanages, is this really life at its best? What is the question? It may be easy to give money at church, or to your favorite charity, but what does the older child left behind really need? Read what happens when a 4 year old orphan is adopted when he thought that this would never be. Open up your heart and get ready to laugh and cry as this story unfolds and lets you know that yes, you too can make a difference.
