Grammar Booster for OET Nursing has been designed to support nursing students and healthcare professionals seeking to boost their English language proficiency in the workplace through consolidation, extension and application of their existing grammar knowledge to a range of healthcare settings. Grammar Booster for OET Nursing provides the opportunity to develop more effective communication skills for use in a range of healthcare settings through increased awareness of grammar forms presented and practised in context. Grammar Booster for OET Nursing is ideal for healthcare students and professionals who:

- have a current minimum English language proficiency of Upper Intermediate level (CEFR B2)
- plan to have their English language proficiency assessed through the Occupational English Test (OET).
- wish to build their confidence to become more effective communicators in the workplace.

Grammar Booster for OET Nursing is a user-friendly grammar resource which can be used for independent study or adapted for classroom use to support specialised English language nursing courses, including English for Academic Purposes (EAP) for Nursing and OET preparation courses. Grammar Booster for OET Nursing offers ten units. Units 1-9 are stand-alone units, each of which addresses a key grammar area that may cause difficulty for learners. Units 1-9 include:

- an introductory setting to showcase the grammar area for development
- a Grammar Boost section to provide examples and explanations
- practice tasks to develop proficiency in applying the grammar structures to healthcare contexts.
- answer keys for the practice tasks in each unit at the back of the book.

Unit 10 is a Review Unit designed to recycle all key grammar areas explored and practised in Units 1-9 and has an answer key for the review tasks at the back of the book.

"The Occupational English Test (OET) is designed to meet the specific English language needs of the healthcare sector. It assesses the language proficiency of healthcare professionals who wish to register and practise in an English-speaking environment." -- back cover.

This book provides students with a comprehensive overview of Australian and international public health issues and contexts. It explores recent changes in the local public health field, as well as complex global public health issues, and engages with the political and cultural impacts these have on public health systems. The book aims to deepen students' understanding of the determinants of health, historical and theoretical perspectives of public health, and current health research. Through consideration of new perspectives, it introduces the latest public health discourses and explores issues of health promotion and health inequalities that inform much of the understanding of

public health today. Drawing on more than 25 years' experience, Pranee Liamputtong leads a stellar author team to present this essential resource. Each chapter includes learning objectives, key words, tutorial exercises and further reading, as well as illustrative and informative case studies to aid students' understanding of key concepts.

In 2018, a new version of the Occupational English Test was launched: OET 2.0. This edition addresses the NEW Reading Sub-test in OET 2.0. This book constitutes Volume 1 of the Reading Sub-test series. It provides OET candidates with a synopsis of the current structure of the Reading Sub-test, test-taking strategies that everyone should know, advice on how to prepare for each part of the Reading Sub-test, a study guide for building up your vocabulary, and specialised practice material, which accurately reflects the level of difficulty, format and vocabulary used in the real OET. The book can be used to assess readiness for the OET, improve time management skills and perfect your test-taking strategies. Please note that the practice tests in this book utilise the same texts as the first edition. About the author: Anna Hartford is an Australian OET teacher who has spent many years preparing candidates for the Occupational English Test. She has used her extensive knowledge of the OET to establish Progressive Coaching, a business specialising in helping healthcare professionals begin their career in Australia.

The purpose of the Occupational English Test is to evaluate the English competence of people who have trained as medical and health practitioners in one country and wish to gain provisional registration to practice their profession in an English-speaking context. The Listening sub-test is based on topics and tasks common to all candidates and consists of two parts: a recorded, simulated professional-patient consultation with note-taking questions and a recorded talk or lecture on a health-related topic with short-answer/note-taking questions. A set of questions is attached to each section.

Written by prominent and internationally renowned scholars, *Communicating Quality and Safety in Healthcare* engages healthcare trainees from across medicine, nursing and allied health services in a comprehensive and probing discussion of the communication demands that confront today's healthcare teams.
