Oil on the Brain - New America

Lisa Margonelli's Oil on the Brain is the author's attempt to explain the price of a gallon of gasoline at the pump by tracing that refined product all the way back to its source. Margonelli came to her subject with the very limited understanding of the oil industry that the average American consumer has but, by spending time with industry people working in all of its many branches, she gathered enough information and insight to write an entertaining explanation of how gasoline is priced in ...
