The urge to forge one ' s character by fighting, in daily life as well as on the mat, appeals to something deep within us. More than a collection of fighting techniques, martial arts constitute a path to developing body, spirit, and awareness. On the Warrior ' s Path connects the martial arts with this larger perspective, merging subtle philosophies with no-holds-barred competition, Nietzsche with Bruce Lee, radical Taoism and Buddhism with the Star Wars Trilogy, traditional martial arts with basketball and American Indian culture. At the center of all these phenomena is the warrior. Though this archetype seems to manifest contradictory values, author Daniele Bolelli describes

the heart of this tension: how the training of martial technique leads to a renunciation of violence, and how overcoming fear leads to a unique freedom. Aimed at students at any level or tradition of martial arts but also accessible to the armchair warrior, *On the Warrior's Path* brings fresh insights to why martial arts remains an enduring and widespread art and discipline. Two new chapters in this second edition focus on spirituality in the martial arts and the author's personal journey in the field.

"Approaching the multifaceted world of traditional Japanese martial arts, one can experience moments of profound mystery. It can happen when you receive a lesson from a true Master while visiting their places of origin, or the first time you hold a forged sword, a sublime but sanguinary work of art. It can happen when you are weighing a simple, old, rusty, weighted chain in the palms of your hands." *The Kusari* - also known as *Kusarifund* or *Manrikigusari*, is a traditional minor weapon used by the warriors and police officers in the Japanese feudal period. Tracing its historical, philosophical and technical traits, Christian Russo, practitioner and teacher of Japanese Martial Arts, accompanies us through an evanescent time and place, where this small weapon has been secretly guarded for centuries. History, legend, anthropology, philosophy, martial arts, folklore and mysticism alternate in *Kusari*. Christian Russo was born and lives in Turin, Italy. He began practicing *Jutaijutsu* at the *Yoshin Ryu School of Martial Arts* in 1993; among the other armed specializations of the School, *Hojojutsu*, the Art of the Rope, and *Kusarijutsu*, the Art of the Chain which fascinated him at first sight. He is a passionate scholar

of martial arts history and collector of Kakushi-Buki, the hidden weapons of Japanese warriors.

Martial arts and philosophy have always gone hand in hand, as well as fist in throat. Philosophical argument is closely paralleled with hand-to-hand combat. And all of today ' s Asian martial arts were developed to embody and apply philosophical ideas. In his interview with Bodidharma, Graham Priest brings out aspects of Buddhist philosophy behind Shaolin Kung-Fu — how fighting monks are seeking Buddhahood, not brawls. But as Scott Farrell ' s chapter reveals, Eastern martial arts have no monopoly on philosophical traditions: Western chivalry is an education in and living revival of Aristotelian ethical theories. Several chapters look at ethical problems raised by the fighting arts. How can the sweaty and brutal be exquisitely beautiful? Every chapter is easily understandable by readers new to martial arts or new to philosophy.

The knowledge in this book is derived from decades of instructing every branch of the U.S. military, as well as the Department of Defense, police agencies, SWAT teams, and elite-level bodyguards. The information and wisdom is also gleaned from over forty years spent in the martial arts and gaining over fifteen black belts in various arts. During that time, I have run numerous academies and been able to work as private protection for numerous VIPs, including the stars of film and TV shows such as The Walking Dead, Arrow, and others. The lessons I've learned have shown me that, despite the many obstacles that make life feel impossible at times, there is a way forward for anyone dreaming of becoming an elite-level performer, athlete, businessman, or anyone simply seeking a happier, fuller life. I have been low and discovered what it took to get back up. And I have had people from all across the spectrum come to me for guidance, and I have shown them the steps that I took, and that other masters before me took. We are all down at some point. It is inevitable in this life. But there is a process to recovery, steps that one can take to redeem one's body, mind and spirit. This book is a collection of those steps, a set of guidelines I have found to be universally beneficial to those that have decided to opt out of the

quitter's mentality and finally seek a higher awareness and greater happiness. A sigma personality. I have taught soldiers, and soldiers have taught me. I have been in the company of killers and monks, and found that there are a surprising number of foundational habits that they all have in common, habits allowing them to reach a higher state and keep themselves sane, aware, healthy and clearheaded. In this book you will learn techniques on breathing and exercising more intelligently, but you will also see highlighted the many ways you can alter your thinking to reach greater physical and mental goals. This book is not just about how you should think differently about your body, but also how you should rethink your thinking, and begin a journey of self-discovery that, if you're lucky, will last until your dying day. There is a way forward, a path one can take to rejuvenate themselves and ascend past the normal limitations set not just by others, but by oneself. It is not hopeless. You are not hopeless. There is a path forward. Let me show you.

This book is a meditation on facing fear, heartbreak, and mortality. It is the story of a man who in rapid succession has his wife die in his arms, loses his house and his job, and is left to care for his 19-month old daughter. Oddly enough, the best tools for coping with all of this were those he learned in more than two decades of the martial arts practice. Not Afraid tackles this extremely heavy subject matter in a light-hearted style and with an attitude that acknowledges pain and suffering but denies them dominion over one's life. In his own irreverent and inimitable style, Daniele Bolleli tells the story of his courtship and marriage, which would have been a sweet story had not all hell broken

loose. Or as he puts it, "Hell was a ninja who entered my house without being seen. It all began in such an unremarkable way that it barely registered as anything meaningful. Little did I know that the experiences of the next five months would rip me apart and kill me. They would re-forged me into a different man. On that day, I became an unwilling traveler on a journey through the heart of fear. Every step along the way has forced me to face my fears time and time again." In autobiographical fashion, Not Afraid recounts how martial arts practice and personally relating to fear-inducing experiences can affect and shape one's personality. The result is a page-turning book about beauty as well as tragedy, hope as well as despair.

This unique study of the genesis and development of the earliest form of Buddhist self-defense practiced by Chuan Fa monks and mystics shows both the philosophical and physical basis of the skills developed and passed on to subsequent generations. This book seeks to reunite these concepts. Its teaching draws equally on the practices of North Chinese Chuan Fa Movement Meditation Traditions and on the South Chinese Esoteric (Mi Chiao) School--both secret traditions rarely revealed to the general public. The material is presented so readers can understand that what we think of as a competitive sport is really a meditation mandala in action. Extensive appendices list the main Chinese dynasties, a chronology of Buddhist Sutras, a chronological record of scriptures, teachers, events during 1000 years of Indian and Chinese Buddhism, and translations of Bodhidharma's texts including The Six Gates, Entering the Buddha's Path, and the treatise upon the Bloodline Teaching of True

We're faced in this world with a battle; a battle against fear, doubt, confusion, hesitation, and surprise and all its combinations. The professional warrior must not only confront these challenges, but must build strong foundations and provide training to those who seek stability. A warrior is not a soldier. A warrior is not a survivor of some illness or disease. A warrior is not an athlete. A warrior is none of these-though we hear the term "warrior" it is nearly always affiliated with the above. THE "WARRIOR'S PATH" is a call to action to confront greed, selfishness, materialistic gain, narcissistic beauty, and fear of age and the uncertainty of what happens upon death; developing yourself without emulation or imitation of others. Live in harmony and balance connected within nature and the universe. THE "WARRIOR'S PATH" encourages one to seek, experience, and use the strategies necessary to live life to the fullest and die without regret; resolve insecurities and take responsibility to change your mentality to find balance. Davine Green explores the principles and philosophy of the code of a true warrior and offers a comprehensive lesson plan followed by a contract of commitment. This informative text is part of a continual series leading to a stronger and more stable state of being. THE "WARRIOR'S PATH" encourages "you" to begin your walk down the path to fortitude and clarity and becoming a professional warrior in mind and body.
