'This is a book about rural Australia, love gained and lost, and fighting for what you believe in. But, unlike many books in the same genre, The Saddler Boys is subtly about so much more.' Weekly Times Schoolteacher Natalie has always been a city girl. She has a handsome boyfriend and a family who give her only the best. But she craves her own space, and her own classroom, before settling down into the life she is expected to lead. When Nat takes up a posting at a tiny school in remote Western Australia, it proves quite the culture shock, but she is soon welcomed by the inquisitive locals, particularly young student Billy and his intriguing single father, Drew. As Nat's school comes under threat of closure, and Billy's estranged mother turns up out of the blue, Nat finds herself fighting for the township and battling with her heart. Torn between her society life in Perth and the rural community that needs her, Nat must risk losing it all to find out what she's really made of - and where she truly belongs. Praise for Fiona Palmer 'Fiona Palmer just keeps getting better.' Rachael Johns 'Palmer's passion for the land bleeds into the story, and her scenes are vivid and genuine, just as her characters are.' Book'd Out 'Fiona Palmer has well and truly earned her place as a leading writer of one of Australia's much-loved genres.' Countryman

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

As technological advancements accelerate change, global organizations must re-invent themselves periodically or they will become irrelevant. It is not only the change itself that is impacting so much, but more the rate of speed that change is occurring. To adopt new structures, adapt to changing situations and implement new systems requires innovative, flexible, visionary leaders. This is a learner-focused manual for training Emerging Business Leaders. It is not meant to be a scholarly dissertation, but a how and what to do manual or handbook. The manual is designed to empower a new kind of business leader - one that may have 7-10 careers during a fast-paced lifetime. Even though technology has a profound influence on business formation and operations, there are eternal principles that ultimately overshadow all else. These principles are time-tested and proven over centuries of industry and governing. Leading wisely is still a mandate to be embraced by CEOs and organizational leaders today.
