The Pattern Making Process, the Aptitudes, and Investments. Pattern makers are the hardest working people I have met. They are exquisite problem solvers, and when a designer tosses them a design, immediately their minds start to compute the math, and how those lines and shapes can be accomplished in the drafting, how it will be sewn, and how to communicate that to a team of people who are ...

This fourth edition of Metric Pattern Cutting for Children's Wear and Babywear remains the standard text book but has three major improvements. First, the sections have been re-organised to reflect changes in producing and marketing children's clothes. Today's popularity of easy-fitting styles and knitted fabrics means that basic 'flat' pattern cutting is used to construct the majority of children's wear and babywear and this type of cutting is therefore emphasised in this new edition. Shaped blocks and garments, cut to fit the body form, are still included, and are placed in chapters covering some school uniform garments or more expensive fashion or formal clothes. The book now clearly separates the sections useful to student beginners (Parts One, Two and Three), and also offers more advanced or specialist sections for students who wish to pursue a career in children's wear or for designers working in the different manufacturing sectors of the trade. The second change in this fourth edition is the introduction of colour coding to the sections; this makes it easier to identify specific processes in the book and enhances the illustrations. Finally, the size charts have been revised to reflect the changes in body sizing. The clear division of the boys' and girls' measurements in the charts has been in response to the way clothes are marketed and to co-ordinate with European size charts. 'Plus' charts for heavier children have also been added.

which lead to careful studies and ongoing updates taking into account changing needs. As in the other volumes of the series, the author has written a method, simple but at the same time detailed, precise and easy to understand.

If you've ever watched Project Runway and wished you were a contestant, or you're simply ready to take your sewing to a new level, Design-It-Yourself Clothes teaches you the fundamentals of modern patternmaking so that you, too, can create your own inspired clothing. Until now, the aspiring DIY fashionista has been hard-pressed to find self-teaching tools other than dry textbooks or books with outdated looks. Finally, in Design-It-Yourself Clothes, former Urban Outfitters designer Cal Patch brings her youthful aesthetic to a how-to book. If you want to wear something you can't find on store racks and make clothes that express your individual style, or if you've reached a sewing plateau and want to add pattern drafting to your repertoire, Design-It-Yourself Clothes is the book you have been waiting for. In five key projects (each with four variations)—a perfect-fitting dress, T-shirt, button-down shirt, A-line skirt, and pants—Patch shares the art of patternmaking. At its core, it's much simpler than you think. Patch covers everything an intermediate sewer needs to know in order to become a fabulous fashion designer, from designing the patterns, taking your own measurements, and choosing fabrics to actually sewing the clothing. You will also learn how to stylize patterns by using darts, waistbands, patch pockets, and ruffles. Patch offers tips, explanations, options, and exercises throughout that will make the design process that much easier. But besides showing you how to create clothing from scratch, she also teaches you how to rub off patterns from existing clothing—so if you have a pair of pants that you love but are worn out, or you have your eye on a piece in the store with a prohibitive price tag, you can figure out how to get the looks you want by using your own two hands.

Features twenty-five designs for clothing and accessories for children age six through twelve.

Make your own cute and fashionable clothes for girls with this easy-to-use sewing book. Author, Yuki Araki is one of the most recognized names in the growing sewing-for-children movement. The mother of two daughters, Araki has become a DIY sewing favorite because she knows what young girls want. They like to wear stylish clothes that also let them play with ease. Moms adore the relaxed aesthetic of Araki's simple mix-and-match play clothes and accessories, and young girls are happy wearing them because they're both cute and comfortable. Best suited for girls from two to five years old, the sewing patterns in this Japanese sewing book are simple, casual, and look good on any girl. Araki provides westernized patterns in four sizes, plus diagrams and instructions for twenty-two pieces. Simple lines give kids room to move, and the classic styles look good on any frame. Sewing designs include: Shoulder-tie camisole top and dress Classic smock shirt and dress Four variations of a basic elastic-waist skirt Shorts and easy-breezy kid-style leggings to pair with any top Button-front and pullover tops Adorable bucket hat Moms will love dressing their girls in these economical and easy-to-make clothes. Nothing could be simpler—or sweeter!
