Includes bibliographical references and index

As an incredibly engaging study guide that can be used either independently or in conjunction with any A&P book, the Anatomy and Physiology Coloring Workbook helps you get the most out of your A&P classes. Dr. Elaine Marieb thoughtfully crafted the text to include a wide range of coloring activities and self-assessments. Each step you take leads you into an amazing world where they can learn more about anatomical structures and physiological functions.

The #1 best-selling book for the human anatomy course, Human Anatomy, Seventh Edition is widely regarded as the most readable and visually accessible book on the market. The new edition builds on the book's hallmark strengths--art that teaches better, a reader-friendly narrative, and easy-to-use media and assessment tools--and improves on them with new and updated Focus Figures and new in-text media references. This edition also features vivid new clinical photos that reinforce real-world applications, and new cadaver photos and micrographs that appear side-by-side with art--all to increase students' ability to more accurately visualize key anatomical structures.

This coloring book, organized by systems, includes two additional sections: Cells & Tissues and Pregnancy & Birth. Coloring encourages active involvement in the learning process. Line drawings and supporting text help to break-down complex anatomical topics. This book is divided into 14 sections with over 425 illustrations covering systems and physiology. The book lays flat for easy viewing. Printed single sided on heavy stock helps prevent bleed-through. Pages are perforated along the spine and each page can be removed for individual topic study. This coloring book, organized by systems, includes two additional sections: Cells & Tissues and Pregnancy & Birth. Coloring encourages active involvement in the learning process.
