Pets on the Couch: Neurotic Dogs, Compulsive Cats, Anxious ...

Pets on the Couch CHAPTER ONE The Dog Who Ate Wineglasses When the Brain Short-Circuits Some people talk to animals. Not many listen though. That’s the problem. —A. A. MILNE I sat in my office and watched a video of a male Golden retriever going insane. The footage was murky because it was shot in a darkened house at night.

From the renowned veterinary school at Tufts University: "A must read for pet lovers who want to ensure their dog has quality golden years" (USA Today). Our dogs are living longer than ever thanks to enormous advances in medical treatment and a highly evolved understanding of what they need to thrive. No one knows this better than the faculty of the Cummings Veterinary School at Tufts, who treat more than eight thousand older dogs annually. Their philosophy of caring for aging canines combines empathy for each individual pet and owner, a comprehensive approach to patient care, cutting-edge science and technology, and a commitment to innovation. Good Old Dog brings their renowned clinic to you, sharing essential knowledge to keep man’s best friend thriving through their golden years. Nutritional advice: Not every senior diet is right for every senior dog Information on treating conditions common to older dogs How to evaluate complicated procedures and decide what’s right for your pet The cost of caring for an older canine and how to shoulder the burden How to identify cognitive decline and manage it Advice on creating a healthy and comfortable environment How to determine when “it’s time” and how to cope with the loss And much more

Packed with uproarious yet decidedly accurate case studies, this is a unique look at the mental disorders plaguing our beloved childhood characters. Critical questions concerning a range of classic individuals are all answered, including: Should Tigger have received treatment for hyperactivity? If Beauty had told her therapist about her relationship with the Beast, would she have been diagnosed as co-dependant? and Did Winnie the Pooh have an addictive personality? Each study also looks into how these characters presented ideas of love, life, inner peace, and good mental health to generations of children. So lay back on the big couch and learn all about the traits, diagnoses, and theoretical treatment programs for your favorite friends.

For more than sixty years, The Wall Street Journal has prided itself not just on its serious journalism, but also on the whimsical and arcane stories that amuse and delight its readers. In that regard, animal stories have proven to be the most beloved of all. Now, veteran Journal reporter and Page One editor Ken Wells gathers the finest, funniest, and most fascinating of these animal tales in one exceptional book. Here are lighthearted, witty stories of breakthroughs in goldfish surgery, the untiring efforts of British animal lovers who guide lovesick toads across dangerous motorways, and the quest to tame doggy anxieties by prescribing the human pacifier Prozac. Other pieces reflect on mankind’s impact on the animal kingdom: a close-up look at the nascent fish-rights movement, the retirement of U.S. Air Force chimpanzees that once soared through space, and ongoing scientific efforts to defeat that most hardly enemy -- the cockroach. Each of these fifty-odd stories -- from the outlandish to the poignant -- exemplifies the superb feature writing that makes The Wall Street Journal one of America’s best-written newspapers. This charming and utterly captivating collection will be a joy not only to animal lovers, but to all those who appreciate artful storytelling by writers who are obviously having a wonderful time spinning the tales.

Living with three strong-willed, highly individual Dachshunds can be equal parts entertaining, frustrating and rewarding. Just ask Matt Ziselman. Armed with a fresh, creative voice that is unabashedly cranky one moment and profoundly poignant the next, Ziselman mixes hilarious canine stories, with heartfelt reminiscences from his own life, the results of which is a memoir of illuminating life lessons, courtesy of the three thoroughly Teutonic Daeshunds that he shares his life (and couch) with: Baxter, Maya and Molly. Seemingly mundane moments, like Baxter’s incessant, neuroses inducing staring, Maya’s inexplicable refusal to walk through the front door and Molly’s obsessive compulsive love for a torn and tattered blanket become, through Ziselman’s insightful eyes, a treasure trove of observations that any dog-lover will appreciate. In a market where Americans spend more than \$40 billion a year on their pets, this work of razor-sharp wit and quiet tenderness will reach out and grab readers everywhere by the heartstrings and-quite possibly-their leashes. HOUNDED wraps universal insights in hot-dog-shaped packages, providing true dog lovers with many knowing nods, honest belly laughs and an accurate, warts-and-all reflection of the fascination, wonder and love that they have for their dogs. And that Matt Ziselman obviously has for his.

In her new book, How to Rule the World from Your Couch, Laura Day teaches you or your company how to create success in any area by using your brain in unique and compel-ling ways so that your innate intuition can propel you ahead to successful solutions. The step-by-step exercises included – many of which can (and should!) be done from the comfort of your couch – will show you how you can • Find and secure your dream job • Maintain solid relationships, even at a distance • Lose weight by reclaiming the body you were meant to have • Know how to spot your perfect mate • Make better investments and business decisions • Negotiate differences in the workplace • Have an understanding relationship with your child • Identify which opportunities will pan out • Project a desirable image for yourself or your product • Anticipate and resolve difficult conflict before you walk into a situation Laura’s work has helped demystify intuition and demonstrate its practical, verifiable uses in the fields of business, science, medicine, and personal growth. Her list of clients and students includes doctors, financial investors, scientists, engineers, and celebrities. Day has shown that 98 percent of success is planning and that you, therefore, have the power to transform your life.

#1 New York Times Bestseller “Funny and smart as hell” (Bill Gates), Allie Brosh’s Hyperbole and a Half showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog Hyperbole and a Half the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, “The God of Cake,” “Dogs Don’t Understand Basic Concepts Like Moving,” and her astonishing, “Adventures in Depression,” and “Depression Part Two,” which have been hailed as some of the most insightful meditations on the disease ever written. Brosh’s debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn’t me wrote it—but I soon discovered that I’m not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

When Judith Summers first met George, the Cavalier King Charles Spaniel who would change her life, she and her young son, Joshua, were mourning the deaths of her husband and her father, who had died barely two weeks apart. It was love at first sight. George was the ultimate upper-class pooch, and seemingly the perfect puppy, brimming with love and joy and complete with “the kind of film-star looks that made strangers stop in the street and coo over him.” But, as Judith soon discovered, George was as time-consuming as a full-time job and as expensive to run as a Ferrari. Willful, possessive and badly behaved, he refused to eat anything other than organic roast chicken, destroyed her work, and suffered from every allergy and illness under the sun. On top of that, George was horribly accident-prone. Stuff happened to him. His vet bills alone have run to \$25,000, and George is still only nine years old! It wasn’t long before King George ruled the roost in Judith’s home. But even after he drove away one of her suitors, she couldn’t fathom giving him up. Just as his naughtiness was boundless, so was his devotion to her and her son. A foot-warmer on cold nights, a good listener, and a fierce (okay, not so fierce) protector, George was always by their side—and much of the time underfoot. For anyone who has ever loved an incorrigible pet or known what it was like to lose a loved one, My Life with George is the hilarious and moving account of the impossible but adorable George, and of the wonderful way in which he helped to fill a huge void in the lives of both Judith and her son while driving them absolutely barking mad along the way.
