The experts at Porsche Classic developed these engine oils with the help of engineers at the Porsche Development Centre in Weissach and a German oil supplier, formulating them especially for the requirements of flat engines in 356 and 911 models (including the type 996), all four-cylinder and eight-cylinder engines, such as those in the 924, 928, 944 and 968, as well as the Porsche Boxster type 986. During development, the oil was subject to extensive laboratory and field tests designed to ...

The Porsche 924 is a sports car produced by Audi in Neckarsulm on behalf of Porsche AG of Germany from 1976 to 1988. A two-door, 2+2 coupé, the 924 was intended to replace the Porsche 914 as the company's entry-level model. Although the water-cooled, front-engined 928 gran turismo was designed first, the 924 was the first road-going Porsche to have a front engine rear wheel drive configuration. It was also the first Porsche to be offered with a fully automatic transmission. The 924 made its ...

The new management of Porsche AG followed the kastenprinzip philosophy, literally the building-block principle, dictating that Porsche develop both four & eight-cylinder engines. As a result, there were to be two cars, the 924 and the 928, the numerical designations chosen later in the development program to indicate the engine sizes: 924 for the four-cylinder model, 928 for the eight-cylinder ...
