Both Power and Manual boxes have two spline sizes that mate to our spud shaft. Our manual steering kits are supplied with a .730 " dia. 30 spline spud shaft. If your steering box has .730 " dia. 36 spline, Part No. 716834-36 can be substituted. On power steering kits, we supply the most common spud shaft which is a .800 " dia. 36 spline.

The steering pump mount was the challenge for me and I had to fabricate my own. If you have a service manual look at all the variations in v belt layout, if something is added something else gets moved like on a ca. 258 the air pump gets moved way up from the manual steering location to allow the steering pump to go below etc. etc.
