Do you need help with writing essays? The 'How to Ace Essay Writing in Three Steps' essay writing guide includes outlines for six common essay types and a planner for 45 essays. This guide shows you how to write your essays using a simple process broken down into the three stages of essay writing. Stage 1 outlines the fundamentals of planning your essay. It shows you how to understand your assignment task, perform your research, and write your thesis statement. Stage 2 guides you through writing your essay outline, describes the common characteristics of academic writing, how to write your draft, and writing your conclusion. Stage 3 outlines the critical aspects of reviewing your work, so your final essay is very well polished! The book also contains six essay outlines for: 1. The Analytical Essay 2. The Argumentative Essay 3. The Interpretive Essay 4. The Comparative Essay 5. The Problem and Solution Essay 6. The Cause and Effect Essay Each outline provides guidance on when each different type of essay is used, as well as examples. In addition, each outline provides you with the structure you can follow to write your essay, including what to include in your essay introduction, body and conclusion. It takes the guesswork out of essay writing. This book is designed to help all students and will help you build your confidence in your essay writing skills. Also included is a planner to help you map out, plan and write 45 essays. You will go from a beginner to an expert in no time after using the How to Ace Essay Writing in Three Steps, essay guide and planner.

Learning, Problem Solving, and Mindtools is inspired by the substantial body of learning research by David H. Jonassen in the areas of mind tools and problem solving. The focus of the volume is on educational technology, especially with regard to how new technologies have facilitated and supported problem solving and critical thinking. Each chapter focuses on a particular aspect of learning with technology and elaborates the implications for the design and implementation of learning environments and activities aimed at improving the conceptualization of problems, reasoning and higher-order thinking, and solving challenging problems. This collection of scholarly essays provides a highly engaging treatment of using tools and technologies to improve problem solving; multiple perspectives on integrating educational technology to support learning in complex and challenging problem solving domains; guidance for the design of instruction to support problem solving; a systemic account of the relationships between mental models, instructional models, and assessment models; and a look into the future of educational technology research and practice.

The new edition of the Great Writing series provides clear explanations, extensive models of academic writing and practice to help learners write great sentences, paragraphs, and essays. With expanded vocabulary instruction, sentence-level practice, and National Geographic content to spark ideas, students have the tools they need to become confident writers. Updated in this Edition: Clearly organized units offer the practice students need to become effective independent writers. Each unit includes: Part 1: Elements of Great Writing teaches the fundamentals of organized writing, accurate grammar, and precise mechanics. Part 2: Building Better Vocabulary provides practice with carefully-selected, level-appropriate academic words. Part 3: Building Better Sentences helps writers develop longer and more complex sentences. Part 4: Writing activities allow students to apply what they have learned by guiding them through writing, editing, and revising. Part 5: New Test Prep section gives a test-taking tip and timed task to prepare for high-stakes standardized tests, including IELTS and TOEFL. The new guided online writing activity takes students through the entire writing process with clear models for reference each step of the way. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This workbook contains a variety of exercises and activities designed to help young learners advance the fine motor skills that are essential to the handwriting process, beginning by tracing lines and curves, and then gently introducing some letter-writing practice. Several mazes are also included in the book as a fun way to promote visual motor skills, eye-hand coordination, and problem-solving skills. Young students are introduced to the letters of the alphabet in exercises that have them trace Lowercase Alphabet and then practice writing them on their own. Numbers are also presented in an engaging way, with a lesson in phonetics as well as exercises for tracing and writing numerals. A section of connect-the-dot games provides more motor skills development along with helping children learn the order of alphabet, while fill-in-the-blank games reinforce alphabet learning in a different way and provide more practice in writing the missing letters. My BIG Book of Writing! is a versatile tool that can help children who are struggling with writing skills to work at a comfortable level, as well as assisting those for whom writing comes more easily to experience the multitask learning their developing minds are hungry to absorb. Whatever level a child is at, the activities and exercises in this workbook will stimulate the learning process and prepare him or her for reading and other learning challenges ahead.

Signs in Contemporary Culture is an introduction to the science of semiotics. It is unusual in that it has an application for every semiotic concept it discusses so readers can see how semiotics can be applied to many aspects of everyday life.

Formatting Briefs in Word explains how to create all the elements of a legal brief in Microsoft Word. Written by a lawyer for lawyers, paralegals and law students, readers will find this book invaluable for creating the best formatted briefs possible. While good formatting will not save a terrible brief, it will enhance a good one; and a good brief can be destroyed by poor formatting. Every page of this book is devoted towards solving the problems of formatting briefs. Topics include how to set up Word for legal writing; font selection; page layout; formatting using styles; creating tables of contents and authorities; and creating cover pages. Conformance with court rules is stressed throughout. This is an intermediate to advanced book on Word. The reader is expected to know already Word basics. This book takes the reader to a higher skill level.

Join Matty Goldberg as he retells ten hilarious comedic essays in his second book, No IQ.

There are times when what a youngster does or says is absolutely baffling to mom or dad. How can 15-year-old Sarah spend hours prepping her hair and not give one second to cleaning her room? Likewise, what's wrong with 10-year-old Mark who knows he shouldn't bully his little brother but does so anyway? Certainly parents want answers, and no one is surprised when a parent falls back on interrogating a child or teen with repeated " Why? " or " What were you thinking? " questions. Unfortunately, searching for the reasons children behave as they do by asking the ubiquitous " Why? " is ultimately unsuccessful and, frankly, irrelevant. " I don't know, " " Because, " or " I wasn't thinking, " is the usual child response, resulting in frustrated parents and youngsters who feel embarrassed, stupid or annoyed. Drs. Charles C. Larson and John B. Dockstader, each with more than thirty years of experience working with parents and youngsters, advise parents to step back from situations such as those described and offer, instead, techniques for evaluating and solving family problems without needing to know " Why? ". The authors counsel parents how to determine if a problem exists, who owns the problem and who is best equipped to solve it. Numerous real-life examples are presented to illustrate the problem-solving process and solutions. In Parenting Without Guilt, parents learn not only to solve family problems, but also why the challenges parents and youngsters face today are more demanding than ever before. In addition, parents are guided through each stage of child development, from birth to young adulthood, with attention to typical problems any parent may anticipate. Resources that parents can use to help them resolve family discords are discussed, to include working with educators, clergy, pediatricians, private practitioners and others. With compassion, humor and wisdom gained through practical experience, Drs. Larson and Dockstader offer information and advice that provides any parent with the skills to raise successful children without guilt, anxiety or distress.
