"A comprehensive guide to proper diplomatic, official and social usage, the book includes a history of protocol in America." -- New York Times, 1997 "Contains a wealth of detail on every question, from titles and forms of address to ceremonies and flag etiquette."

In this comprehensive guide to diplomatic, official, and social etiquette, McCaffree and Innis define and describe the forms and procedures of protocol. Seeking to help the newcomer to official life--at the local, state, national and international levels--understand the rules of protocol, the authors provide information on the order of precedence, on titles and forms of address to be used in written and oral communications, on calling and calling cards, invitations and replies, official entertaining and private parties, table seating arrangements and flag etiquette. They also present a historical background of modern protocol, discuss women in official and public life, and show the many changes in customs and manners brought about by changing times. McCaffree has served as Social Secretary and as Press and Personal Secretary at the White House. ISBN 0-941402-04-5 : \$20.00 (For use only in the library).

In The Protein Protocols Handbook, I have attempted to provide a cross-section of analytical techniques commonly used for proteins and peptides, thus providing a benehtop manual and guide both for those who are new to the protein chemistry laboratory and for those more established workers who wish to use a technique for the first time. We each, of course, have our own favorite, commonly used gel system, g-staining method, blotting method, and so on; I'm sure you will find yours here. H- ever, I have also described a variety of altematives for many of these techniques; though they may not be superior to the methods you commonly use, they may nev- theless be more appropriate in a particular situation. Only by knowing the range of techniques that are available to you, and the strengths and limitations of these te- niques, will you be able to choose the method that best suits your purpose.
