This book offers a collection of essays in contemporary political philosophy from a wide range of Continental viewpoints. The authors include some of the most prominent European and European-oriented philosophers and political thinkers of our day. Two sections out of four focus on the debate between prescriptive and descriptive types of political thinking. On the prescriptive or normative side, Karl-Otto Apel, Robert Paul Wolff, Robert Spaemann, Hans Jonas, and Jean-Francois Lyotard discuss current forms of legitimating political life via some ultimate grounding. On the descriptive or phenomenological side, Bernhard Waldenfels, Michel Henry, William J. Richardson, Jürgen Link, and Vincent Descombes argue that an

understanding of praxis is always implied as one reaches insights into the life-world; there is no need to either construe or set normative standards for action. The remaining two sections deal with transcendental and institutional types of political philosophy, respectively. Manfred Riedel, Stanley Rosen, Thomas Seebohm, and Ludwig Siep develop Kant's search for a priori conditions in the public realm; explicitly or implicitly, they confront the ancient Greek with the modern Enlightenment conceptions of life in public. Lastly, Agnes Heller, Alain Touraine, Reinhart Koselleck, and Bertram Schefold put to work many ways of looking at the life of our institutions.

What binds societies together and how can these social orders be structured in a fair way? Jeffrey C. Alexander's masterful work, *The Civil Sphere*, addresses this central paradox of modern life. Feelings for others--the solidarity that is ignored or underplayed by theories of power or self-interest--are at the heart of this novel inquiry into the meeting place between normative theories of what we think we should do and empirical studies of who we actually are. Solidarity, Alexander demonstrates, creates inclusive and exclusive social structures and shows how they can be repaired. It is not perfect, it is not absolute, and the horrors which occur in its lapses have been seen all too frequently in the forms of discrimination, genocide, and war. Despite its worldly flaws and contradictions, however, solidarity and the project of civil society remain our best hope: the antidote to every divisive institution, every unfair distribution, every abusive and dominating hierarchy. This grand, sweeping statement and rigorous empirical investigation is a major contribution to our thinking about the real but ideal world in which we all reside.

Die Reihe Islamkundliche Untersuchungen wurde 1969 im Klaus Schwarz Verlag begründet und hat sich zu einem der wichtigsten Publikationsorgane der Islamwissenschaft in Deutschland entwickelt. Interpreting the work of one of the most influential thinkers of the 20th century, *The Reluctant Modernism of Hannah Arendt* rereads Arendt's political philosophy in light of newly gained insights into the historico-cultural background of her work. Arguing against the standard interpretation of Hannah Arendt as an anti-modernist lover of the Greek polis, author Seyla Benhabib contends that Arendt's thought emerges out of a double legacy: German Existenz philosophy, particularly the thought of Martin Heidegger, and her experiences as a German-Jewess in the age of totalitarianism. This important volume reconsiders Arendt's theory of modernity, her concept of the public sphere, her distinction between the social and the political, her theory of totalitarianism, and her critique of the modern nation state, including her life long involvement with Jewish and Israeli politics.

Immanuel Kant's legal philosophy and theory have played an enormous role in the development of law since the eighteenth century. Although this influence can be seen primarily in German law and in the law of nations which have traditionally been oriented toward German legal development, today Kant's philosophy has experienced a Renaissance in the Anglo-American legal world. This anthology collects what the editors believe to be the very best of articles on Kant's legal theory, with an emphasis on his *Metaphysics of Morals* of 1797. In particular the articles relate to: 1) the nature of law and justice, 2) private law, 3) public law, 4) criminal law, 5) international law, and 6) cosmopolitan law.

Questioning Ethics offers an unsurpassed overview of the state of ethical thinking today by some of the world's foremost philosophers, such as Habermas, MacIntyre, Ricoeur and Kristeva.

Pulitzer prize – winner Chris Hedges charts the dramatic and disturbing rise of a post-literate society that craves fantasy, ecstasy and illusion. Chris Hedges argues that we now live in two societies: One, the minority, functions in a print-based, literate world, that can cope with complexity and can separate illusion from truth. The other, a growing majority, is retreating from a reality-based world into one of false certainty and magic. In this “other society,” serious film and theatre, as well as newspapers and books, are being pushed to the margins. In the tradition of Christopher Lasch's *The Culture of Narcissism* and Neil Postman's *Amusing Ourselves to Death*, Hedges navigates this culture — attending WWF contests as well as Ivy League graduation ceremonies — exposing an age of terrifying decline and heightened self-delusion.

Drawing on the writings of thinkers ranging from Kant, Hegel, Feuerbach and Marx to Weber, Schmitt, Benjamin, Adorno, and Arendt, this book explores the ideas, meaning, and history of civil society, its role in the 1989 revolutions, its role in new social movements and its relationship with the state and the economy.

The editors, working with a team of 325 renowned authorities in the field of ethics, have revised, expanded and updated this classic encyclopedia. Along with the addition of 150 new entries, all of the original articles have been newly peer-reviewed and revised, bibliographies have been updated throughout, and the overall design of the work has been enhanced for easier access to cross-references and other reference features. New entries include * Cheating * Dirty hands * Gay ethics * Holocaust * Journalism * Political correctness * and many more.

In the absence of noble public goals, admired leaders, and compelling issues, many warn of a dangerous erosion of civil society, which includes families, religious organizations, and all other NGOs. Are they right? What are the roots and implications of their insistent alarm? How can public life be enriched in a period marked by fraying communities, widespread apathy, and unprecedented levels of contempt for politics? How should we be thinking about civil society? *Civil Society: The Critical History of an Idea* provides a comprehensive discussion and analysis of two and a half millennia of Western political theory, as well as how civil society might be understood in the future. John Ehrenberg analyzes both the usefulness and the limitations of civil society and maps the political and theoretical evolution of the concept and its employment in academic and public discourse. From Aristotle and the Enlightenment

philosophers to Black Lives Matter and the Occupy movement, Ehrenberg provides an indispensable analysis of the possibilities of what this increasingly important idea can, and cannot, offer to contemporary political affairs. In this new, second edition Ehrenberg brings the historical overview up to present day, specifically considering how major events such as 9/11, the global financial crisis, economic inequality, and rapidly advancing technologies alter and shape our relationship to contemporary civil society. Civic engagement, political participation, and volunteerism in contemporary life has faded, he argues, and in order to bring civil society—and all its virtues—back to the fore, we need to counter the suffocating inequality that has taken hold in recent years. Thorough and accessible, *Civil Society* gives a sweeping overview of a foundational part of political life. Instructor's Guide
