Radical Abundance in Radical Times ebook - Sacred Spirituality
While austerity calls for scarcity in order to generate more growth, degrowth calls for abundance in order to render growth unnecessary. Abundance, then, is the solution to our ecological crisis. If we are to avert climate breakdown, the environmentalism of the 21st century must articulate a new demand: a demand for radical abundance. References

Two of the most promising trends facilitating this shift are decentralization and the emerging technologies of radical abundance. These two trends are intimately tied to one other. The nature of decentralization enabled by things like peer to peer technologies (p2p) is that it shifts the power to the edges, the ends, the “ bottom ” .

The kinetics of accretion of atoms and molecules on cold (10 K) grain surfaces dictates that molecules are built up an atom at a time. The production of complex molecules on cold grains may be initiated by H atoms quantum tunnelling into closed-shell molecules such as CO (Tielens & Hagen 1982) followed by activationless,
