Harley Twin cam 88ci strip and rebuild part 5 - YouTube

The Harley-Davidson Twin Cam are motorcycle engines made by Harley-Davidson from 1998 to 2016. Although these engines differed significantly from the Evolution engine, which in turn was derived from the series of single camshaft, overhead valve motors that were first released in 1936, they share a number of characteristics with nearly all previous Harley-Davidson engines.

Harley-Davidson Twin Cam engine - Wikipedia

These complete Harley-Davidson engines can be divided into four categories: one-cylinder engine, big twin engines, sports engine, and water-cooled engines. One-Cylinder Engines: These used Harley engines were mainly manufactured for single-cylinder motorcycles. They were produced regularly until 1934 before big twin engines took over.
