Les médias sociaux ne sont pas étrangers aux relations publiques. Au contraire, l'essence même des relations publiques est la création de liens sociaux avec les différents publics des organisations. Toutefois, si la constitution d'un capital social demeure l'objectif principal des relations publiques, les pratiques professionnelles se transforment avec l'usage des médias sociaux. Cet ouvrage, réunissant les contributions de chercheurs et de praticiens professionnels des communications numériques du Canada et de la France, comporte des articles scientifiques, des études de cas, des bilans et perspectives, et des outils. Il fournit des repères théoriques, mais aussi des études de cas sur l'utilisation des médias sociaux à des fins de relations publiques. Des réflexions sont également proposées sur les tendances dans les médias sociaux, sur les principes fondamentaux des relations publiques et sur la formation à offrir aux gestionnaires de communautés. Enfin, l'ouvrage recèle une boîte à outils qui répond aux besoins des organisations, que ce soit en matière d'intégration des médias sociaux, de stratégies de gestion de commentaires ou de règles d'usage des médias sociaux (netiquette).

Pourquoi faire appel à un cabinet de relations publiques? Quelle formation, quelle expérience et quelles habiletés les consultants doivent-ils posséder? Comment répondre efficacement aux besoins de la clientèle et en même temps savoir gérer et rentabiliser un cabinet? Voilà quelques-unes des questions auxquelles répond l'auteur de cet ouvrage en esquisant les meilleures pratiques de la gestion de la clientèle et de celle du cabinet lui-même.

Fifty years after the conclusion of the Treaties of Rome (25 March 1957) and the foundation of the European Economic Community, Brussels has become a political world city and international capital with global influence. The acta of the interuniversity and international colloquium, held in Brussels on 18 and 19 December 2006, present a general outline of the research results and 26 contributions, based on original research and divided into three parts. The first part focuses on Brussels' position in the 'world city network'. How has Brussels grown into the European and international 'capital' we know today? What exactly is its legal status as the European 'Capital'? Of course, other aspects such as the relationship between the Brussels-Capital Region and the Europe of Regions and the role of Brussels as the place for lobbying the European Union are also examined. The second part focuses on the interaction between the European institutions and Brussels. What are the socioeconomic, demographic, political and linguistic effects of their presence? Finally, a number of pressure points and areas of tension are analysed. How is Brussels 'imagined' or represented as the capital of Europe? And what is the impact of the European presence on urban planning and security policy? -- Back cover.
