For many believers, the mystery of the Holy Spirit remains just that. God in You, now in popular trade paperback format, is the layperson's guide to this often-misunderstood member of the Trinity. Pastor David Jeremiah explores the Holy Spirit in concrete terms, leaving abstract concepts behind. Not an idea, not an influence, not some vague, mystical force, Jeremiah explains, the Holy Spirit is actually the almighty God of the universe come to live inside the believer's skin. And a clear understanding and appreciation of His attributes can ignite the passion of every Christian's walk with Christ. In this compelling, gently instructive book Jeremiah affirms, "Without [the Spirit], we're about as useful to God's kingdom as an unplugged toaster."

Family secrets lead to an explosive discovery in this enthralling first installment. Things don't seem to add up and her life is constantly threatened in the pursuit of love. Is there a way to find an answer for it all? Liz is your typical overworked Physical Therapy Assistant. She loves her job but has come to a time in her life where the stress from being overworked, and the passing of her mother, has left her with a sense of wanting. Adventure hasn't always been on her list of things to do, but it seems that this next chapter of her life may not exactly be what she had in mind. The cabin that was left for her when her mom passed is originally her grandmother's and has many stories to tell. Unfortunately for Liz, these stories reveal a tale that she was not quite ready for. After some thought and external pressures, Liz decides to make the leap and go the road less traveled. She moves to the cabin and takes the new job. With renewed life and purpose, she also uncovers mysteries surrounding the cabin and her heritage. There's a shift in the winds. Can Liz come to understand it? Or will the winds drown her out?

God has already given you the power to create your own future...you just need to learn how to use it. The Power of God-Given Imagination awakens the dreamer within you by unveiling this incredible gift and explaining its quiet necessity in your life. No faith has ever sprouted and no prayer has ever been prayed without the use of imagination. For too long the power of imagination has been associated with New Age mysticism or the secular realm of "positive thinking." Ray McCollum defies this trend by demonstrating that the power of the human mind and imagination belongs to the church—and God expects us to use it. Within the pages of this book, you will discover exactly what the power of imagination is, how it works, and how you can use it to both transform your personal life and transform the culture around you by releasing the kingdom of God.

The \$12 billion self-help industry is under constant attack for pedaling false miracles to duped believers. But sociologist Albert Amao demonstrates that Americans eagerly support self-help books, seminars, and programs because, under the right conditions, these things work. Sociologist Albert Amao analyzes the accuracy of self-help and positive-thinking claims in this groundbreaking—and wholly unexpected—exploration of what works, what doesn't, and why. "Regarding my personal experience," Amao writes, "I can testify that positive thinking and positive action have worked wonderfully for me. Born in a poor Latin-American country into a very impoverished family with both parents practically illiterate, I was the oldest of five children. I started working when I was six years old, shining shoes and selling newspapers to help my family. Nobody then would have believed that I would be able to finish high school. Nevertheless, I was able to do it going to night school, which allowed me to be admitted at the San Marcos University in Lima to get my Ph.D. in sociology. All these things were possible because, when I was teenager, I had access to New Thought," or positive-thinking philosophy. Contrary to the critics who blithely dismiss self-help methods, or the New Age gurus who sell it them as miracles, Amao—writing with sobriety, scholarship, and drawing on deep personal experience—explores the conditions under which self-help is authentic.
