Here in Mt. Shasta California, the powerful frequency of the spirit of the mountain is calling each of you to return to balance, unity, and wholeness, and to find the beautiful beautiful frequency of Divine Mother Love and Divine Father Love, that lives inside of each of you.

Return to Oneness - Lea Chapin

It is from the union of the mind with the heart, between the soul and spirit, which brings you into Self Awareness and the Realm of Divine Existence. For without this union, oneness, like

There is a river of light, pure intelligence and love within each of us. When the river flows in its fullness, unimpeded from head to toe, we feel

successful, happy, fulfilled and awake to our true nature as eternal, timeless beings. Unfortunately, often the river is merely a trickle. Returning to Oneness reveals the limitations that restrict the flow of light in the body and mind and shows us how to awaken more permanently to our full potential by using a series of simple keys, which are based in the ancient teachings of non-duality. Presented here in a clear, easy, user-friendly form, the Seven Keys (now Eight) offer a path out of our confusion and angst. Never before have the teachings of love, wisdom and unity consciousness been so greatly needed as they are now, as tools for navigating these extraordinary times of rapid, accelerating change. As revealed in this much-anticipated third edition, Earth and humanity are opening to new levels of spiritual

power and awareness. We are experiencing a complex re-working of our old energy system into a dramatically new one that allows the physical body to tap fully into its vast multidimensionality. This radical overhaul of the body's subtle-physical anatomy heralds the emergence of both a completely new, integrated human being and a whole new planetary energy system. By activating and developing our direct connection to Source, we can not only survive but thrive amidst the challenges of today, including the assaults of our increasingly stressful, chaotic and toxic environment. This book contains many practical exercises, prayers and meditations to help us reach new, ascended states of consciousness-and live healthy, productive and fulfilling lives.

such as lower dantien breathing,

important principle - awareness and

intention are powerful factors for
personal transformation and healing.

The goal of the fifth book Return to Oneness with Shiva is to offer a solution to most people whose life challenge is battling their monkey-mind (ego) which I believe is the cause of suffering and can be conquered by becoming like Hanuman whose love and devotion to his Sadguru is shown by the application of Hanuman Qigong and Hunaman ji's mantras and self-realization teachings of Kashmir

Most people are not aware that their healing and spiritual ascension are essentially associated with the functioning of their thyroid gland or throat chakra. Who and what you meditate on, you become. The unified chakra and aligned energy fields are very important, not just for survival, but - more importantly - as vital tools for ascension, healing and channeling. "Ascension is basically a change in frequency and a change in focus of consciousness. Because the energy you are has frequency, you can change it. The low-frequency stuff of fear and limitation will fall away and you will live in a state of what you would today call ecstasy, at one with

It is always dependent on that Consciousness. It cannot move outside of that Consciousness. It exists only when it is residing in His Consciousness. This is the way the creation of His universe takes place. You must understand that this universe, which is created by the Lord

A guide for healing, inner happiness and spiritual awakening by activating and developing your lightbody. The first book *Meditation and Qigong Mastery* elaborates on the meditation and Qigong principles that masters use to

activate and develop their lightbodies, also called EMF (electromagnetic fields), Wei Qi or merkaba, which is the missing mastery principle not discussed by eastern authors in their meditation and Qigong books. Omkabah heart lightbody activation and Maitreya (Shiva) Shen Gong are introduced. Quotations on inner mastery by meditation masters are included to guide the readers toward the path of inner mastery. Powerful mantras are also included to unite the meditation practitioners to the spiritual divine energy of the ancient lineage of the Siddha and Buddhist Masters. Lastly, the merkaba energy ball of light with holographic sound healing is taught for healing and spiritual awakening.

The important questions: "Who am I? Why was I born? What is the goal of my life? What am I supposed to accomplish here?" are hopefully answered in this supplementary book to the "Return to Oneness with Shiva" with the help of my Siddha Guru Baba Muktananda's excerpts from his books and my Sadguru Nityananda's grace

which are based from the Self-realization teachings of Kashmir Shaivism. Who and what you meditate on, you become. When you meditate on the Self as the Self, you become one with Shiva, the Self of all. "Form is emptiness, emptiness is form," states the Heart Sutra. The essence of all things is emptiness. To become aware of So'ham, "I am That," is to attain oneness with the Higher Self. The result of the integration of the Siddha Guru and the awakened Kundalini is a meditation that is very powerful. The subtle path to the Self is most easily attained through the Guru. Kabir said that the Guru makes one perfect; he unites the individual soul with Shiva. Unconditional love is the fulcrum of this universe, the original point of the universe. In the practice of Meditation on Three Hearts and Hanuman

Qigong efforts must be made to integrate the mind and heart, to feel the interaction between Love and Qi, restoring the experience of harmony in the world, in nature, and the Universe that may be understood as "being with higher Self" symbolized by Swastika or Yuan Shen (Original Spirit). Grounding and rooting to mother earth through the practice of Enlightenment Qigong forms especially Hanuman Qigong, Eight Extraordinary Meridians Qigong, and Drawing in Heaven and Earth via Wei Qi field activation are added to Siddha spiritual practices to balance the Shakti Qi flow in the body, build the Lightbody, psychic self-defense, avoid post-kundalini syndromes often seen in yoga practitioners and Self-realization. A Guide for Emotional and Self-Mastery, Healing and Stress Management The goal of the fourth book Keys to Healing and Self-Mastery according to the Hathors, a supplementary book to Holographic Sound Healing taught at the Meditation and Qigong Mastery book, and the Omkabah Heart Lightbody Activation video, is to build the Ka and offer readers an effective Hathor's emotional mastery technique to manage emotional stress, the main cause of disease, in their daily lives and spiritually awaken when emotional stress is cleared, released and stabilized. Doing this practice will

provide a fast, safe way to stabilize your chaotic emotions such as anger or fear. Holographic Sound Healing with the Four Sacred Elements is integrated with Ka(Merkaba) Meditation to complement Holographic Lightbody activation, and build the Sahhu or immortal golden lightbody. Dr. Johanna Budwig's Diet for Cancer and Chronic Diseases and Sun gazing are included as adjunct keys to healing. In summary, the four books Meditation and Qigong Mastery, Return to Oneness with the Tao, Return to Oneness with Spirit, and Keys to Healing and Self-Mastery according to the Hathors form a four-sided basic pyramid foundation, so to speak, of dietary and energy-based psychoneuroimmunology or neuroimmunomodulation strategies to effectively heal substance abuse and

chronic diseases mainly caused by emotional stress, diet that is high in trans-fatty acids and low in Essential Fatty Acids, and unhealthy lifestyle. These strategies bring the physical, mental, emotional, and spiritual aspects of a person into homeostasis, and at the same time spiritually awaken a person in the process of being in the flow because the individual being is one with universal being.

In the early 1990s three friends sat together to practice the art of meditation. Soon they were joined by a wonderful lady, Olive, who was then in her early eighties.
