Writing Proposals aims at making it easier for your project to access a grant with two tools: industry best-practices and a field-tested proposal template. This book is mainly for projects that wish to access public grants and will give you: - A downloadable proposal template and budget sheet - An A-to-Z methodology to write your proposal and budget developed over 7 years of practice - In-depth explanations for each proposal section - Several examples of paragraph texts - 7 Writing techniques to make your project's case better - 26 Proposal-Specific writing tips Proposal Writing is a daunting task: we have to follow strict guidelines and a process we aren't familiar with. On top of that, we need to present our project in the best possible light, all within a very tight deadline. Doing everything, and doing it perfectly, is possible - but it requires time: time to read, to understand, to plan and to write. Time, unfortunately, is the resource we lack the most, and we might not be able to build the necessary expertise via practice. This is where I come in: I put my time in this book, so you don't have to waste yours. This book is a collection of the best, tools, tricks and techniques developed in 7+ years of grant writing. Every single tool or concept has been field tested and refined via trial and error. Writing Proposals is divided in three sections SECTION 1 is an A-to-Z guide on how to write a proposal. It provides a workflow, a sample proposal structure, and a downloadable proposal template and budget sheet. Each one of its chapters provides a detailed explanation of the different building

blocks: - First Steps of Proposal Writing - Outline of the Technical Proposal - Introduction - Context and Proposal Structure - Methodology - Organisation and Staffing - Budget - Review and Finalization SECTION 2 focuses on Writing Techniques for Proposals, meaning what you can do to write your text better, faster and to make it more effective. Here, we go over 7 fundamental tools for better writing. SECTION 3, lastly, is a collection of 26 Proposal-Specific Writing Tips, that is a series of adjustments you can use in your text right away that make your document more readable and easier to follow. At the end of the book you will find the proposal structure (for quick reference) and a methodology to calculate your personnel's hourly rate

A "how-to" approach to navigating the strenuous path from DNP plan to completed project. You completed your DNP proposal and have approval to proceed: What's next? How do you move from proposal phase to conduct and complete your project? This text is the first to discuss the practical steps to implement and complete the project and will help DNP students to systematically transition from plan to action. Written by an author with extensive experience helping students with their quality improvement projects, the text educates readers on the core components of conducting the clinical scholarly project. With a focus on working effectively with clinical staff, the book addresses IRB approval; ethics; working with human subjects; project planning; collecting, analyzing, and interpreting clinical data; disseminating findings; and how to complete the project in a timely manner. It discusses interprofessional collaboration, team building, and how to debrief project participants. Examples of successful scholarly projects and recommendations for project improvement offer additional guidance, along with consideration of common problems that many students face and how to resolve them. Objectives and review questions are provided in selected chapters along with a robust Instructors Guide containing additional active learning strategies for each chapter. Key Features: Delivers practical, step-by-step strategies for implementing and completing the DNP project Focuses on finding and effectively communicating with team members Explains how to collect, analyze, and interpret clinical data Describes how to establish protocol for working with patients Offers chapter objectives, review questions, and case studies demonstrating major content components
