Put the TV in standby mode. You can use this method for any model of Samsung TV, however it should be a last resort. You can put the TV in standby by turning it off with the remote control. You'll know the TV is in standby because the red remote control sensor light will be on despite the TV screen being off.

I have yet to find another tv with picture quality that is this good. It has plenty of video outputs especially compared to the 2015 tv's that are being sold today. It's a true 120hz refresh rate. I'm still trying to figure out what this tv has that other tvs even other Samsung tvs don't have that makes its' picture so much better.
