Considered Teffi's single greatest work, *Memories: From Moscow to the Black Sea* is a deeply personal account of the author's last months in Russia and Ukraine, suffused with her acute awareness of the political currents churning around her, many of which have now resurfaced. In 1918, in the immediate aftermath of the Russian Revolution, Teffi, whose stories and journalism had made her a celebrity in Moscow, was invited to read from her work in Ukraine. She accepted the invitation eagerly, though she had every intention of returning home. As it happened, her trip ended four years later in Paris, where she would spend the rest of her life in exile. None of this was foreseeable when she arrived in German-occupied Kiev to discover a hotbed of artistic energy and experimentation. When Kiev fell several months later to Ukrainian nationalists, Teffi fled south to Odessa, then on to the port of Novorossiysk, from which she embarked at last for Constantinople. Danger and death threaten throughout *Memories*, even as the book displays the brilliant style, keen eye, comic gift, and deep feeling that have made Teffi one of the most beloved of twentieth-century Russian writers.

The problem of mass blindness today stems largely from cataract which accounts for a total of 40 million cataract victims in the world — and it will worsen with the ageing population. Fortunately, this problem can be resolved with cost effective extracapsular cataract extraction (ECCE) and posterior chamber implantation (PCI). This book highlights how the use of ECCE and PCI can restore normal vision to cataract victims around the world. A successful approach is to establish training centres. The success of the International Intraocular Implant Training Centre (IIITC) in the Peoples' Republic of China is cited to show that implant surgery for cataracts can be successfully performed in communities in developing nations in Asia with appropriate training and supervision. The centre has since yielded excellent results with cost effective ECCE and PCI. The book challenges eye surgeons around the world to unite to address a global need to contain world cataract blindness. Scandinavia's most famous painter, the Norwegian Edvard Munch (1863-1944), is probably best known for his painting *The Scream*, a universally recognized icon of terror and despair. (A version was stolen from the Munch Museum in Oslo, Norway, in August 2004, and has not yet been recovered.) But Munch considered himself a writer as well as a painter. Munch began painting as a teenager and, in his young adulthood, studied and worked in Paris and Berlin, where he evolved a highly personal style in paintings and works on paper. And in diaries that he kept for decades, he also experimented with reminiscence, fiction, prose portraits, philosophical speculations, and surrealism. Known as an artist who captured both the ecstasies and the hellish depths of the human condition, Munch conveys these emotions in his diaries but also reveals other facets of his personality in remarks and stories that are alternately droll, compassionate, romantic, and cerebral. This English translation of Edvard Munch's private diaries, the most extensive edition to appear in any language, captures the eloquent lyricism of the original Norwegian text. The journal entries in this volume span the period from the 1880s, when Munch was in his twenties, until the 1930s, reflecting the changes in his life and his work. The book is illustrated with fifteen of Munch's drawings, many of them rarely seen before. While these diaries have been excerpted before, no translation has captured the real passion and poetry of Munch's voice. This is a translation that lets Munch speak for himself and evokes the primal passion of his diaries. J. Gill Holland's exceptional work adds a whole new level to our understanding of the artist and the depth of his scream.
