## SAP Transaction Code WTY (Warranty Claim) - SAP TCodes ...

Warranty claims are the SAP provided method of handling any claims from a customer or third party. You will typically use warranty claims in any event where the reimburser (whomever is actually paying for the repair) does not do the warranty/repair work, but rather outsources the work to another party (the claimant) and pays them for the time and materials.

Warranty Claims Management - YouTube

SAP Warranty Management works with claim objects that keep track of the transparency through an easy versioning concept. Within one claim, inbound and outbound processes can be processed for each partner. Within one category, there can be a unlimited number of versions which document the proceeding of a claim.

Clemens Paulus, SAP 2019, September 25th

Now assuming that you know you want to implement warranty claims, let's get started with step 1. The general settings. First, if you're not familiar, the transaction OWTY is the place to go for all your warranty claims configuration needs. So, I like to start at the beginning, so select General Settings.
