The first in-depth look at the multibillion-dollar company Alibaba.com-known to many as "China's eBay"-and the inspirational story behind the man who created it. A bestseller in China and now translated into English and updated with recent events, Alibaba by Liu Shiyong and Martha Avery tells the remarkable story behind the Internet phenomenon Alibaba.com and its founder Jack Ma, a man Barron's named one of the World's Top 30 CEOs in 2008. Ma's rise to prominence presents a riveting story: Despite growing up in China during the Cultural Revolution-in a period of total state control of the economy-he developed the keen entrepreneurial instincts that propelled him to billionaire status and enabled him to build a company outside the usual government channels. These instincts and habits incorporated martial arts training and allowed him to recognize, early on, that the Internet could leverage his company to rapid growth and also transform the way business is done around the world. Alibaba.com, where businesses can buy and sell everything from air beds to zippers, started with a modest initial investment of \$60,000 and has grown exponentially since its founding in 1999 to become the world's biggest business-to-business Web site. In 2007 it became the second largest IPO in history (after Google), and Fast Company has named it one of the world's most innovative companies. As a result, smart investors and technology insiders will be keeping a close eye on Alibaba for years to come. Whether you're seeking to understand China's meteoric rise, or just searching for the next Google, Yahoo!, or Amazon, Alibaba is crucial reading.

Insolent and defiant, the Chants de Maldoror, by the self-styled Comte de Lautr eamont (1846-70), depicts a sinister and sadistic world of unrestrained savagery and brutality. One of the earliest and most astonishing examples of surrealist writing, it follows the experiences of Maldoror, a master of disguises pursued by the police as the incarnation of evil, as he makes his way through a nightmarish realm of angels and gravediggers, hermaphrodites and prostitutes, lunatics and strange children. Delirious, erotic, blasphemous and grandiose by turns, this hallucinatory novel captured the imagination of artists and writers as diverse as Modigliani, Verlaine, Andr  Gide and Andr  Breton; it was hailed by the twentieth-century Surrealist movement as a formative and revelatory masterpiece.
