A NEW YORK TIMES BESTSELLER! AS HEARD ON NPR MORNING EDITION AND ON BEING WITH KRISTA TIPPETT “Katherine May opens up exactly what I and so many need to hear but haven't known how to name.” —Krista Tippett, On Being “Every bit as beautiful and healing as the season itself. . . . This is truly a beautiful book.” —Elizabeth Gilbert "Proves that there is grace in letting go, stepping back and giving yourself time to repair in the dark...May is a clear-eyed observer and her language is steady, honest and accurate—capturing the sense, the beauty and the latent power of our resting landscapes.” —Wall Street Journal An intimate, revelatory book exploring the ways we can care for and repair ourselves when life knocks us down. Sometimes you slip through the cracks: unforeseen circumstances like an abrupt illness, the death of a loved one, a break up, or a job loss can derail a life. These periods of dislocation can be lonely and unexpected. For May, her husband fell ill, her son stopped attending school, and her own medical issues led her to leave a demanding job. Wintering explores how she not only endured this painful time, but embraced the singular opportunities it offered. A moving personal narrative shot through with lessons from literature, mythology, and the natural world, May's story offers instruction on the transformative power of rest and retreat. Illumination emerges from many sources: solstice celebrations and dormice hibernation, C.S. Lewis and Sylvia Plath, swimming in icy waters and sailing arctic seas. Ultimately Wintering invites us to change how we relate to our own fallow times. May models an active acceptance of sadness and finds nourishment in deep retreat, joy in the hushed beauty of winter, and encouragement in understanding life as cyclical, not linear. A secular mystic, May forms a guiding philosophy for transforming the hardships that arise before the ushering in of a new season.

An ambitious, Baileys prize-nominated debut set in an unforgettable place, introducing a powerful new voice in fiction The Shore: a group of small islands in the Chesapeake Bay, just off the coast of Virginia. The Shore is clumps of evergreens, wild ponies, oyster-shell roads, tumble-down houses, unwanted pregnancies, murder, and dark magic in the marshes. Sanctuary to some but nightmare to others, it's a place that generations of families both wealthy and destitute have inhabited, fled, and returned to for hundreds of years. From a half-Shawnee Indian's bold choice to escape an abusive home only to find herself with a man who will one day try to kill her, to a brave young girl's determination to protect her younger sister as methamphetamine ravages their family, the characters in this remarkable novel have deep connections to the land, and a resilience that only the place they call home could create. Through a series of interconnecting narratives that recalls the work of David Mitchell and Jennifer Egan, Sara Taylor brings to life the small miracles and miseries of a community of outsiders, and the bonds of blood and fate that connect them all. Spanning over a century, dreamlike and yet impossibly real, profound and playful, The Shore is a breathtakingly ambitious and accomplished work of fiction by a young writer of remarkable promise.

A Minneapolis Star Tribune Best Book of 2014 • Recommended by The New Yorker, The New York Public Library, Alan Cheuse of NPR, Grantland • Shortlisted for the 2014 International Dylan Thomas Prize • Longlisted for the Frank O'Connor International Short Story Award A "ruminative...lovely...accomplished" (The New York Times Book Review) and "touching" (The Seattle Times) debut collection of stories that "sparkles with the brilliance and charm of Chekhov." (Simon Van Booy, award-winning author of Love Begins in Winter and The Illusion of Separateness) Kseniya Melnik's Snow in May introduces a cast of characters bound by their relationship to the port town of Magadan in Russia's Far East, a former gateway for prisoners assigned to Stalin's forced-labor camps. Comprised of a surprising mix of newly minted professionals, ex-prisoners, intellectuals, musicians, and faithful Party workers, the community is vibrant and resilient and life in Magadan thrives even under the cover of near-perpetual snow. By blending history and fable, each of Melnik's stories transports us somewhere completely new: a married Magadan woman considers a proposition from an Italian footballer in '70s Moscow; an ailing young girl visits a witch doctor's house where nothing is as it seems; a middle-aged dance teacher is entranced by a new student's raw talent; a former Soviet boss tells his granddaughter the story of a thorny friendship; and a woman in 1958 jumps into a marriage with an army officer far too soon. Weaving in and out of the last half of the twentieth century, Snow in May is an inventive, gorgeously rendered, and touching portrait of lives lived on the periphery where, despite their isolation—and perhaps because of it—the most seemingly insignificant moments can be beautiful, haunting, and effervescent.a

Best Russian Short Stories Edited by Thomas Seltzer. Conceive the joy of a lover of nature who, leaving the art galleries, wanders out among the trees and wild flowers and birds that the pictures of the galleries have sentimentalised. It is some such joy that the man who truly loves the noblest in letters feels when tasting for the first time the simple delights of Russian literature. French and English and German authors, too, occasionally, offer works of lofty, simple naturalness; but the very keynote to the whole of Russian literature is simplicity, naturalness, veraciousness.

Icon and Devotion offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

WINNER OF THE NOBEL PRIZE® IN LITERATURE 2013 Alice Munro, who received the National Book Critics Circle Award for her latest collection of stories, The Love of a Good Woman, is widely acknowledged as a modern master of the short story. In this earlier collection, she demonstrates all of those strengths that have won her so many literary accolades. A divorced woman returns to her childhood home where she confronts the memory of her parents' confounding yet deep bond. The accidental near-drowning of a child exposes the fragility of the trust between children and parents. A young man, remembering a terrifying childhood incident, wrestles with the responsibility he has always felt for his younger brother. In these and other stories Alice Munro proves once again a sensitive and compassionate chronicler of our times. Drawing us into the most intimate corners of ordinary lives, she reveals much about ourselves, our choices, and our experiences of love.
