Social psychology is the scientific study of how people's thoughts, feelings, beliefs, intentions and goals are constructed within a social context by the actual or imagined interactions with others. It therefore looks at human behavior as influenced by other people and the conditions under which social behavior and feelings occur.

Social Psychology | Simply Psychology

The primary object of the science of psychology is human nature and how it is expressed in thoughts, actions, and feelings. God created humans to think, act, and feel and to be in relationship with other humans. Adam and Eve forfeited God's perfect human creation by giving in to Satan's temptations.
