Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world....

The very first resource of its kind, written exclusively for Canada, Mosby's Canadian Manual of Diagnostic and Laboratory Tests provides clear, concise coverage of more than 700 of the most commonly performed tests, with Canadian lab values, SI units, Canadian cultural considerations, and more unique Canadian content. Its many user-friendly features include an easy-to-understand writing style, full-colour illustrations, and a logical organization. Each test entry is presented in a consistent format to provide quick access to information on specimen collection, normal findings, indications, test explanation, procedure and patient care, and test results and clinical significance, as well as any applicable contraindications, potential complications, interfering factors, and related tests. UNIQUE! Test Results and Clinical Significance sections explain pathophysiology and how test results may indicate certain disease processes. Critical values are emphasized to alert you to situations requiring immediate intervention. UNIQUE! Related Tests sections list tests that provide similar information or are used to evaluate the same body system, disease process, or symptom. UNIQUE! SI units in the Normal Findings section of appropriate tests offer quick and easy reference (conventional units also included). UNIQUE! Cultural Considerations boxes highlight important aspects of working with people from the diverse cultural and racial backgrounds of the Canadian population, such as First Nations communities. Includes Canadian generic and trade drug names to comply with Health Canada and the Compendium of Pharmaceuticals and Specialties (CPS). Addresses Canadian privacy laws and legislation (including PHIPA and PIPEDA), the Canadian Labour Code, and policies for DNA collection, reporting of infections such as Chlamydia, and much more. Provides information on Canadian test-tube colouring classifications and guidelines for the correct order and process of collecting blood samples in Canada. Follows Canadian standard precautions and procedures such as those set forth by the Canadian Nuclear Safety Commission, as well as Canadian screening protocols such as those set out in the Canadian Cancer Society Screening Guidelines. Canadian statistics are provided for topics such as STDs and *C. difficile*. New full-colour photographs and enhanced illustrations clarify key concepts and reflect the latest procedures, equipment, and techniques. Completely updated content covers 30 new tests, including ductoscopy, thyroglobulin, lactoferrin, and human papillomavirus.

A collection of eight critical essays on the classical tragedy, arranged in the chronological order of their original publication.

Utilizing a clear, concise writing style, and a use of relevant, real world examples, Soo Tan introduces abstract mathematical concepts with his intuitive approach that brings abstract ideas to life.

Considered one of the city's most notorious industrial slums in the 1940s and 1950s, Brownstone Brooklyn by the 1980s had become a post-industrial landscape of hip bars, yoga studios, and beautifully renovated, wildly expensive townhouses. In *The Invention of Brownstone Brooklyn*, Suleiman Osman offers a groundbreaking history of this unexpected transformation. Challenging the conventional wisdom that New York City's renaissance started in the

1990s, Osman locates the origins of gentrification in Brooklyn in the cultural upheavals of the 1960s and 1970s. Gentrification began as a grassroots movement led by young and idealistic white college graduates searching for "authenticity" and life outside the burgeoning suburbs. Where postwar city leaders championed slum clearance and modern architecture, "brownstoners" (as they called themselves) fought for a new romantic urban ideal that celebrated historic buildings, industrial lofts and traditional ethnic neighborhoods as a refuge from an increasingly technocratic society. Osman examines the emergence of a "slow-growth" progressive coalition as brownstoners joined with poorer residents to battle city planners and local machine politicians. But as brownstoners migrated into poorer areas, race and class tensions emerged, and by the 1980s, as newspapers parodied yuppies and anti-gentrification activists marched through increasingly expensive neighborhoods, brownstoners debated whether their search for authenticity had been a success or failure.

With clarity, verve, and the sure instincts of a good teacher, bestselling author Madison Smartt Bell illuminates the process of narrative design. In essays and analyses of twelve stories by established writers and students, Bell emphasizes the primary importance of form as the backdrop against which all other elements of a story much work. Discussions of the unconscious mind and creativity reinforce other essentials of good writing.

From the author of *THE REVENANT: A HORROR IN DODSVILLE* comes another suspenseful page-turner. *The Haunting of Stephen Wells* opens with the title character lost deep within the northern Wisconsin woods as he attempts to find his best friend's cabin before nightfall. Thirty-eight-year-old Stephen has quit his job in Las Vegas after his four-year-old daughter's death and an ugly divorce, and now plans to spend two weeks "relaxing" at his friend's secluded cabin and getting his life back together. At first it seems to work. Yet, on his first night, a noisy quarrel at the cabin across the lake immediately disturbs his peaceful rest, and later he is jolted awake once again, this time by a frightening wailing—almost but not quite human—and the haunting begins. Internally, he struggles with his recent past and thoughts of ending his life enter his mind. But his luck seems to change when he meets a young beautiful woman, Laura, who, he discovers, shares a horrifying experience from his own past. He barely gets to enjoy his newfound luck, however, before it abruptly changes—and this time for the worse. Laura turns up missing, and Stephen must face the ghost who haunted him in his childhood if he has any hope of saving Laura. And he soon discovers, in order to save her, he must find the missing body of a woman murdered five years ago—before her killer does. The twists and turns during the course of the novel will keep the reader turning the pages to see what actually happens.

"An emotional journey readers won't soon forget--will have readers making their own bucket lists." Marisa Cleveland, author of the South Beach Series "A haunting tale that had me smiling one moment and on the brink of tears the next." Heather Burch, critically acclaimed author of the Halflings Series "A touching story that will make you cherish each day and the ones you love." Jaime Rush, New York Times bestselling author of the Hidden series About 18 Things: Can eighteen things save a life? Olga Gay Worontzoff thinks her biggest problems are an awful name (after her grandmothers of course) and not attending prom with Conner, her best friend and secret crush since kindergarten. Then Conner is killed in a freak boating accident and Olga feels responsible. When she downs an entire bottle of pills to deal with the emotional pain, her parents force her into counseling. There, her therapist writes a

prescription in the form of a life list titled 18 Things. Eighteen quests to complete the year of her eighteenth birthday. All she has to do is fire-walk, try out for the cheerleading squad, break a world record, and err... go on her first date. Good thing Nate, a new hottie in town, enters her life with perfect timing. He brings the fun factor to her list and helps her discover the beauty and strength inside herself, then complicates things by falling in love with her. But there's more to Olga's quests than meets the eye and when her therapist reveals a terrifying secret, her world is shaken. There's only one thing she knows for certain: her choices won't just affect her future, but all eternity.
