X12 Plus / 7 inch Retro Monster Handheld ! Sony Psp Slim Instruction Manual

Manuals are tossed directly in the garbage without consultation, but users don't hesitate to write a bad review and complain that it doesn't work because they didn't charge it first.

Sure, it's just what you've been clamoring for: an ultra slick, portable version of the most popular console gaming system in the world. But Sony's new PlayStation Portable (PSP) isn't just a handheld gaming device. Beyond its killer graphics and spectacular widescreen LCD for unparalleled game play, it also sports wireless connectivity and a variety of multimedia features, including video, music, and digital photography. Your wildly versatile, endlessly powerful PSP practically begs you to hack and repurpose it to your liking. To save you the trouble and show you how to make the PSP do more than you ever imagined--and more than Sony ever intended--PSP Hacks is one succinct volume of 50 of the coolest, most useful, up-to-the-minute hacks for this amazing device. You'll learn how to open your PSP's hardware and what to safely plug into it. You'll explore and put to good use every hidden feature of the device. You'll be able to move all sorts of multimedia onto your PSP and find ways to extend its wireless capabilities. And you'll find out how to get the very best experience out of online game play. With PSP Hacks, you can accomplish a whole lot more than good gaming on the PSP. You'll quickly learn to surf the Web with a PSP, chat in IRC, and use the PSP to read web comics, ebooks, and RSS feeds. Other expert tips and tools allow you to sync an address book to your PSP, watch UMD movies, fool iTunes into thinking the PSP is an iPod Shuffle, and much more. The innovative hacks, tweaks, and how-tos in this essential guide make it easy to customize your PSP, take full advantage of features, capabilities, and functionality far beyond what's listed in the PSP user manual, and make your PSP perform countless tricks that only an all-in-one portable entertainment unit as remarkable and revolutionary as this one could.

Google.com is one of the most popular sites on the Internet and is used around the world by millions of people every day. Sure, you know how to "Google it" when you're searching for something--anything!--on the Web. It's plenty fast and easy to use. But did you know how much more you could achieve with the world's best search engine by clicking beyond the "Google Search" button? While you can interface with Google in 97 languages and glean results in 35, you can't find any kind of instruction manual from Google. Lucky for you, our fully updated and greatly expanded second edition to the bestselling Google: The Missing Manual covers everything you could possibly want to know about Google, including the newest and coolest--and often most underused (what is Froogle, anyway?)--features. There's even a full chapter devoted to Gmail, Google's free email service that includes a whopping 2.5 GB of space). This wise and witty guide delivers the complete scoop on Google, from how it works to how you can search far more effectively and efficiently (no more scrolling through 168 pages of seemingly irrelevant results); take best advantage of Google's lesser-known features, such as Google Print, Google Desktop, and Google Suggest; get your website listed on Google; track your visitors with Google Analytics; make money with AdWords and AdSense; and much more. Whether you're new to Google or already a many-times-a-day user, you're sure to find tutorials, tips, tricks, and tools that take you well beyond simple search to Google gurudom.

Provides information on getting the most out of a PSP, covering such topics as playing multiplayer games wirelessly, reading the comics, changing game backgrounds, and finding free downloads.

Delve into the whole-home wireless revolution and see how you can add smart home devices to your network, connect to your car or your home security video monitors, use your cell phone as a remote control, and more. Wireless Home Networking For Dummies even gives you a look into the not-so-distant future and the wireless wonders in the works!

Five years in the writing by one of science fiction's most honored authors, Doomsday Book is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for Doomsday Book “A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction's best writers.”—The Denver Post “Splendid work—brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction constituency.”—Kirkus Reviews (starred review) “The world of 1348 burns in the mind's eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years Doomsday Book took her to write, open a window to another world, and that she saw something there.”—The Washington Post Book World
