Location filming is growing in popularity with the abundance of affordable cameras. You don't need a studio, a broadcast truck, or even extensive knowledge of how to use a 16mm film camera--all you need is a digital camera, and you can take your job on the road and shoot wherever action is happening! This book will give you the knowledge and confidence you need to take your on-location shooting skills to the next level. Better Location Filming is packed with the things you will need to know to have great results while shooting your documentary, interview, sporting event, fashion or glamour event, or current affairs/news show. Beyond introductory techniques, the author will tell you how to plan, troubleshoot, handle legal requirements and issues, and of course - he'll teach you all about location filming equipment. Practical and filled with hands-on pointers, this book is perfect for working and aspiring film & video professionals seeking a leg up in their careers. As a bonus, advanced tips are included for novices who are ready to take shooting techniques to the next level.

Documentary students and fans revel in stories about filmmakers conquering extraordinary challenges trying to bring their work to the screen. This book brings vividly to life the sometimes humorous, sometimes excruciating-and always inspiring-stories behind the making of some of the greatest documentaries of our time. All of the filmmakers and films profiled are Oscar-nominated or Oscar-winning. Documentary Case Studies walks readers through the fixes and missteps that today's documentary leaders worked through at all stages to create their masterworks—from development, fundraising and pre-production, through production and then post. There are plenty of “how to” documentary filmmaking books in circulation, but this book will instead deploy a personal, intimate, and candid approach to unlocking the secrets of the craft and the business by meeting filmmakers who tackle production challenges in the most resourceful and unconventional ways.

The two volume set LNAI 8481 and 8482 constitutes the refereed conference proceedings of the 27th International Conference on Industrial, Engineering and Other Applications of Applied Intelligent Systems, IEA/AIE 2014, held in Kaohsiung, Taiwan, in June 2014. The total of 106 papers selected for the proceedings were carefully reviewed and selected from various submissions. The papers deal with a wide range of topics from applications of applied intelligent systems to solve real-life problems in all areas including engineering, science, industry, automation and robotics, business and finance, medicine and biomedicine, bioinformatics, cyberspace and human-machine interaction.

Zan Azlee never planned to be a journalist. But one day, he just became one (he thought he was going to be a famous Hollywood actor). He also never planned to get married and be a dad. But one day, he just became one (he thought he was God's gift to women). Those two transitional stages eventually led Zan to experience some of the most fulfilling and best times in his life. This book is a compilation of his pieces written for The Malaysian Insider between 2009 and 2016 that has become an interesting glimpse into the life of a journalist and parent.

Currently one of the most popular film and TV genres due to the success of Michael Moore, *Supersize Me*, and *March of the Penguins*, documentaries and the process of creating them are subjected to scrutiny in this guide, which comes with a bonus DVD featuring three award-winning documentaries discussed as case studies. Fans of the genre will enjoy a history of the art form and interviews with industry insiders and award-winning filmmakers who contribute their tips, tricks, and advice. Aspiring filmmakers will find advice covering the whole production process—from developing a concept to marketing and distribution. Details on the full range of current film festivals are also included.
